# Message from Managing Director

## Sardar Taranjit Singh

In its broadest meaning, education is any act or experience that shapes a person's mind, character, or physical abilities. Technically, education is the deliberate transmission of society's acquired knowledge, skills, and values from generation to generation. Thus, education is the basic fulcrum that drives societal growth.

The quality of education is clearly the priority in this era of globalization. Quality is not a single metric.

A good educational institution works to maintain and improve quality in all areas of operation.

I believe that a teacher may shape an educated and socially responsible human being by instilling two traits in students: curiosity and determination. Second, a teacher's noble life becomes a light for students when they establish strong values and put them into practice.

SurTech's objective to provide the best studying, teaching, and research possibilities for students and academics is to provide students with modern knowledge and strong values.

Our students find the thrill and rigor of new discoveries, and develop skills of investigation, evaluation, and communication that will serve them well in their jobs and lives.

Students' creativity, teamwork, and international competition thrive. SurTech is committed to academic independence and cultural diversity to attract students and teachers.

At Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex (SurTech), we try to establish an environment that inspires personal and professional progress. Our efforts are focused on recognizing and understanding human talent and enthusiasm. SurTech is thus about "how we can best educate our students to confront the future's challenges".

With a 160-year tradition of academic achievement, scientific advancements, and high-tech innovation. I urge you to seize this fantastic chance and join us actively contributing to the globalization of our society.

With these remarks, I welcome everyone to SurTech and wish them every success on their new adventure with us.

**Sardar Taranjit Singh**  
**MD, JIS Group**

# Message from Principal

## Prof. (Dr.) Saradindu Panda

It is my honor and privilege to lead Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex (SurTech) and to advance its forward-thinking mission of tackling the challenges and opportunities of the future, ensuring that our efforts extend far and wide for the benefit of the communities we serve.

India, on the global stage, carries the significant responsibility of evolving into a developed nation with a robust ethical foundation. This is no small feat, and the key to achieving this lies with today's youth—the bearers of ideas, ambition, capability, and most importantly, passion.

I firmly believe that each of us is born with immense potential, but over time, much of this potential fades due to the constraints of the current educational system, which too often limits creativity rather than fostering it. At SurTech, we aim to reverse this trend by creating an environment that encourages the "joy of learning."

Stepping into the JIS Group of Institutions means stepping into a brighter, more enriching world of education—a true hub of knowledge. It offers students a unique opportunity to experience the difference in learning and unlock their full potential.

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex (formerly known as Dr. Sudhir Chandra Sur Degree Engineering College) is recognized as one of India's leading educational institutions. Our goal is to provide high-quality education and to evolve into a world-class center for technical education and scientific research.

Since its establishment in 2009, SurTech, under the guidance of the JIS Group, has continually contributed fresh knowledge, human capital, and innovative ideas to society. Our focus remains on nurturing the next generation of professionals, preparing them to navigate the ever-changing social, economic, and technological landscapes, both nationally and internationally, while striving to build a more inclusive and sustainable future.

Over the past decade, the institute has evolved into a fusion of state-of-the-art infrastructure and deeply connected human resources, all dedicated to delivering professional education with a strong emphasis on creativity and innovation. In a relatively short time, SurTech has developed a comprehensive, multi-layered educational system that spans diploma, undergraduate, and postgraduate programs. These programs are designed with industry-compliant curricula, supported by cutting-edge facilities, and positioned to transform lives and uplift communities.

Our faculty's research endeavors significantly enrich the educational experience for both graduate and undergraduate students. Graduate students are trained to become the next generation of scholars, equipped to advance knowledge and drive technological innovation. Extending research opportunities to undergraduates also enhances their educational journey, offering hands-on experience that extends beyond the classroom.

SurTech remains forward-thinking, embracing the latest advancements while staying clear of fleeting intellectual trends. Our graduates are smart, collaborative, and entrepreneurial, leveraging SurTech's creative environment to realize their full potential. We actively promote entrepreneurship and innovation on campus.

We facilitate campus recruitment and connect our students to global opportunities. The college is dedicated to providing quality training that instills a sense of professional responsibility, social and cultural awareness, and prepares students for leadership roles in their chosen fields.

Life on campus goes beyond academics, placing great importance on extracurricular activities that expose students to fresh perspectives and opportunities. This holistic approach nurtures students into well-rounded professionals, ready to contribute to their fields while staying open to new ideas and technological breakthroughs. Through initiatives such as guest lectures, industrial visits, vocational training (internships), student chapters of international professional organizations, and sponsored projects, students gain valuable exposure to industry experts and real-world challenges.

I take pride in stating that SurTech has far exceeded the modest goals set at its inception. We have produced a highly skilled workforce that serves the nation in various capacities, contributing significantly to the national knowledge base.

I am deeply grateful for the opportunity to serve as Principal of this distinguished institution. SurTech remains committed to serving the state, the nation, and the world, ensuring that our efforts benefit all. I invite you to join us in this shared endeavor.

# Vision and Mission of the Institute

## Vision of the Institute

To be a top global technology institute that creates leaders & innovators and generates new knowledge for society & industry via transformative education.

## Mission of the Institute

- **Excellence in Education:** Education of world-class quality, based on ethics and critical thinking, for the betterment of life.
- **Innovative Research:** An innovation ecosystem to advance knowledge and tackle pressing issues.
- **Impactful People:** Happy, accountable, compassionate, and effective employees and pupils
- **Productivity Enhancement:** Active engagement with national and international companies, as well as institutions, in order to increase productivity and economic development.
- **Service to Society:** Providing knowledge and compassion to the region and the planet.

# Events (FDP/MDP)

Year	Name of the participant	Designation	Title of the FDP /MDP/ professional development / administrative training program	Dates (from-to) (DD-MM-YYYY)
2021-2022	Jayanta Si	Senior Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Sandip Bhadra	Senior Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Supriya Dhara	Junior Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Papiya Nayek	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Soumita Banerjee	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Deepta Debnath	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Maheswar Das	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Sayani Roy	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Abhishek Bysack	Assistant System Administrator	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Manoj Kumar Pandey	Lab Attendant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Mayukh Bairagi	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Pallabi Das	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Sanjib Sarkar	Lab Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Anupama Kumar Guha	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Jit Majumder	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Tanmoy Das	Technical Assistant	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Suparna Rej	Tele caller	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021
2021-2022	Sayani Ghosh Saha	Marketing Executive	PDP on Microsoft office management utilities	19/07/2021 to 23/07/2021

# Events (FDP/MDP)

Year	Name of the participant	Designation	Title of the FDP	Dates (from-to) (DD-MM-YYYY)
2021-2022	Budhhdeb Bhattacharya	Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Sushovan Sarkar	Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Abhijit Kundu	Associate Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Biswabandhu Chatterjee	Associate Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Baibaswata Das	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Krishnendu Kundu	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Souvik Chakraborty	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Sourav Kumar Singha	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Debasish Roy	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Prasun Seal	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Nilanjana Banik	Assistant Professor	FDP on Recent Advancement on Civil Engineering (REACH)	18/02/2022 to 24/02/2022
2021-2022	Arindam Mukherjee	Assistant Professor	FDP on Alternative fuels for IC Engine	02/08/2021 to 06/08/2021
2021-2022	Shankha Ghosh	Assistant Professor	FDP on Renewable Energy – A future alternative	17/01/2022 to 21/01/2022
2021-2022	Kalyan Mukherjee	Assistant Professor	FDP on Alternative fuels: Biofuels	04/10/2021 to 08/10/2021
2021-2022	Sk. Tanbir Islam	Assistant Professor	FDP on Unconventional Machining Process	26/07/2021 to 02/08/2021
2021-2022	Pritam Bhattacharjee	Assistant Professor	FDP on Unconventional Machining Process	26/07/2021 to 02/08/2021
2021-2022	Mallika De	Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Shefalika Ghosh Samaddar	Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Arpita Saha Chowdhury	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Rinku Supakar	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Madhusmita Mishra	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Anjan Kumar Payra	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Debdatta Chatterjee	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Sanjoy Bhattacharjee	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Ruchira Dutta	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Rupan Panja	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Amal Kumar Saha	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Bishal Das	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Somenath Kumar	Assistant Professor	FDP on Digital Image processing using MATLAB	25/06/2022 to 30/06/2022
2021-2022	Prathita Roy	Assistant Professor	Recent Advances in Control Systems - 2021	18/10/2021 to 22/10/2021
2021-2022	Kriti Mukherjee	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Anubrata Mondal	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Soumen Dhara	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Atreeye Kundu	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Anirban Chowdhury	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Aviroop Dewan	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Suvendu Mondal	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Indranil Kushary	Assistant Professor	FDP on Emerging Technologies in Artificial Intelligence, Data Science and Cyber Security	17/07/2021 to 21/07/2021
2021-2022	Arindam Banerjee	Assistant Professor	FDP on Additive Manufacturing	18/02/2022 to 24/02/2022
2021-2022	Arpita Dey	Assistant Professor	FDP on Additive Manufacturing	18/02/2022 to 24/02/2022
2021-2022	Rahul Kumar Prajapati	Assistant Professor	FDP on Additive Manufacturing	18/02/2022 to 24/02/2022

# Message from Coordinator

## Ms. Debasmita Manna

**Dear Students, Faculty, Staff, and Well-Wishers,**

I'm pleased to speak to you as we present the annual report of the National Service Scheme (NSS) at Dr. Sudhir Chandra Sur Degree Engineering College. This year has underscored the significance of service, collaboration, and community engagement.

Our students have actively embraced the NSS spirit, dedicating their time to initiatives that positively impact both our campus and the local community, from environmental efforts to health campaigns.

I extend my heartfelt thanks to our faculty and staff for their unwavering support, which has empowered our students to lead and effect change.

As we move forward, let's continue to inspire one another and seek new opportunities for service. Together, we can expand our impact.

Thank you for your dedication. Here's to another year of service and growth!

Warm regards,

**Drbasmita Manna**

Assistant Professor, Department of ECE

# Vision and Mission of NSS

## **Vision**

The vision is to create the youth with the soul and awareness to assist the society and give effort for the elevation of our country as a movement.

## **Mission**

To afford headship and route in social services, enhance the capabilities of social service organizations, and promote strategic partnerships for social services.

# NATIONAL SERVICE SCHEME (NSS)

The National Service Scheme (NSS) is an Indian Government sector maintained public service scheme. This scheme comes under the fortification of the Ministry of Youth Affairs & Sports. The National Service Scheme (NSS) is an addition of events in the higher education system of India with the purpose of permitting apprentices to progress their nature by providing public service while they are learning. It provides opportunity to the apprentice youth of 11th & 12th standard of schools at +2 Board level and apprentice youth of Technical Institution, Graduate & Post Graduate at colleges and University level of India to take part in various Government led community service activities & programs. The sole aim of the NSS is to offer hands on practice/involvement to young apprentices in distributing community service. This NSS was launched on 24 September 1969 by Dr. Vijayendra Kasturi Ranga Varadaraja Rao (V.K.R.V. Rao). He was the Educational Minister during the 1969 to 1971. Since inauguration of the NSS in 1969, the number of apprentices' strength reached up to over 3.8 million approximately from various schools, colleges and universities to take part in various community service programs. Currently, the headquarter of NSS is located at New Delhi. The Programme Adviser, NSS, New Delhi is the National Head who mainly controls the NSS Scheme all over the India.

After freedom, the University Grants Commission (UGC) was controlled by Sarvepalli Radhakrishnan, who indorsed the outline of charitable nationwide service in academic organizations. In the January of 1950 The Central Advisory Board of Education (CABE) also considered the same things at their meeting. The Father of Nation, Mahatma Gandhi had known that our country could not develop in a proper track till the apprentice youth were inspired to give effort for the upliftment of the townships/public. According to Gandhiji, the townships, where majority of the people existing, personify the nation. Hence, for the nationwide modernization and revival it was considered suitable that the apprentices and educators should be correctly explained and applied for solidification the Indian civilization as a whole with specific accent on rural communal. Then, apprentice youth, educators and the communal are considered as the trio basic apparatuses of the National Service Scheme. After investigation the thought and the involvements of other nations in this ground, the board suggested that apprentices and educators should dedicate time to charitable physical work. In 1958 Chief Minister, Jawaharlal Nehru considered the thought of communal service as a precondition for qualification. It was focused the Ministry of Education to frame an appropriate scheme for the outline of national service into academic organizations.

SurTech

## Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex

(Formerly Known as Dr. Sudhir Chandra Sur Degree Engineering College)

540, DumDum Road, Surer Math (Near Dum Dum Jn. Station), Kolkata-700074 Phone: +91 22 25603889, 25603898, 65330375 Website: [www.surtech.edu.in](http://www.surtech.edu.in) ; Email- [info@dsec.ac.in](mailto:info@dsec.ac.in)

During the 1964 - 1966, D.S. Kothari, head of the Education Commission, indorsed that apprentices at every stage of schooling should be related with some arrangement of communal service. In a government declaration of national policy on education, it was specified that work involvement and national service should be an essential part of edification. Communal services are a variety of community services providing by any nationwide or local government body for its inhabitants, counting such things as health care, public housing, social care and social security. Increasing on our responsibilities as a membership body, we strive to be the voice of the sector and an advocate for underserved needs. We improve communal services, creator innovative programs, progress service delivery and efficiency, and increase commercial and communal engagement to match abilities and desires. Our multidirectional efforts to increase abilities, mobilize properties and offer subsidy to scale up the sector's proficiencies have a key goal in mind - supporting our associates to create long-lasting positive effect. So, for the national renovation and national recovery it was believed suitable that the apprentices and educators should be properly explained and applied for firming the Indian civilization as a whole with specific prominence on rural communal. Therefore, apprentice youth, educators and the communal are considered as the trio basic apparatuses of the National Service Scheme.

**Vision:** The vision is to create the youth with the soul and awareness to assist the society and give effort for the elevation of our country as a movement.

**Resolution:** To confirm that every person has the prospect to breathing a life of self-esteem to his or her fullest possible within society.

**Mission:** To afford headship and route in social services, enhance the capabilities of social service organizations, and promote strategic partnerships for social services.

**Motto:** The National Service Scheme (NSS) has been functioning with the motto “**Not Me But You**” in view of making the youth inspired in service of the people and hence NSS Aims Education through Community Service through Education. It is very profound and evocative and is good in keeping with the spirit of NSS service for others.

The face stands for two belongings:

- i) For receiving and yielding the Self and
- ii) Execution able service for others

540, DumDum Road, Surer Math (Near Dum Dum Jn. Station), Kolkata-700074 Phone: +91 22 25603889, 25603898, 65330375 Website: [www.surtech.edu.in](http://www.surtech.edu.in) ; Email- [info@dsec.ac.in](mailto:info@dsec.ac.in)

The word “Not” before “me” is to diminish the self to augment the reputation of others.

The shortname “Not Me but You” can be just extended as follows:

I do not live for me but for you.

The world is not only for me but for you also.

The motto of NSS reminds us the words of Swami Vivekananda “Not I but, Thou”.

### Objectives:

- i. To develop competence required for group living and responsibilities
- ii. To gain skills in mobilizing community participation
- iii. To acquire leadership quality
- iv. To develop capacity to meet emergencies
- v. To develop confidence for self-education for lifelong learning of advancements being happened around the world.
- vi. To understand the community in which they work
- vii. To understand themselves in relation to their community
- viii. To identify the basic needs and problems of the community
- ix. To develop among themselves a sense of civic responsibility
- x. To practice national integration and social harmony.
- xi. To exhibit the professional knowledge and accepting ethical responsibility to the problems of industry and society.
- xii. To develop professional, ethical attitude, team building skills and multi-disciplinary approach to demonstrate the ideal behavioral qualities while leading the team for deriving maximum productivity.
- xii. To develop consciousness in the issue of social concerns and enabling students to upgrade their personality and experience through community services to have a meaningful linkage between the Institution and Society.

The symbol for the NSS has been based on the giant Rath Wheel of the world famous Konark Sun Temple (The Black Pagoda) located in Orissa, India. The wheel represents the cycle of creation, preservation and release. It signifies the movement in life across time and space, the symbol thus stands for continuity as well as change and implies the continuous striving of NSS for social change. The eight bars in the wheel represent the 24 hours of a day. The red color indicates that the volunteer is full of young blood that is lively, active, energetic and full of high spirit. The navy-blue color indicates the cosmos of which the NSS is tiny part, ready to contribute its share for the welfare of the mankind.

### Why Technical Persons Intend to do Social Service?

- i. In any growing work people are the most vital investors. Because of this circumstance that all growths prerequisite to help some embattled people, be it in the kingdom of well-being, edification, water supply, drainage/sewerage or any other engineering facts.
- ii. Technologists per say one of the main messengers right from the postindependence era.
- iii. Rising effect of globalization and contribution of all the development investors has been more noticeable.
- iv. In any kind of developmental process, careful and specific planning to help the stakeholders both from the angle of participation and implementation.
- v. Today with the rapid advancement of ICT, this need has become manifold. The actual implementers need to know both the environment and population in a holistic manner.

In today's world, this is most important because the executors must learn to know and analyze the actual ground reality from a bet

### **Old Age Home Visit Organized by NSS & Extra Curricular Activities Committee**

**Date:** 1st October 2021

**Time:** 11.00AM

**Venue:** Swapna Neerh Old age Home

412, by Lane, Rail Gate Colony, Dum Dum Cantonment, Subhash Nagar, South Dumdum, West Bengal 700065 **No of Participant:** 38

**Objective:** The aim of the program was to encourage the old people to live life with a positive hope.

A noble initiative has been taken by the students and staff members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with NSS and EXTRACURRICULAR Committee on 01/10/2021 to visit the Old Age Home-Ashram under the scheme of Social Awareness. The Non-Profit Organization accommodates nearly two hundred old men and women, generally aged between fifty to ninety years. The purpose behind this visit was to help the Senior citizens in all the possible ways the students could.

The enthusiastic and determined candidates reached the old age home within an hour from the college. They took charge of all the responsibilities of the organization for the rest of the day. All the candidates greeted the residents and took utmost care of them.

The students of the NSS team on visiting the old age home contributed groceries, fruits, sweets and medical kits, in the hope of helping them to some extent. The plight of living in an old age home where you are forced to adjust and reside with unknown people is quite challenging. However, with the passage of time, every member of this organization lives happily and peacefully with a sense of unity among themselves.

The students spent some fun time with the venerable residents of the home by playing a few brain games and listening to interesting stories of the aged people from their real-life experiences. The NSS team has also talked to the in-charge and authorities of the home for knowing about the different schemes and rental systems which the senior citizens have to pay either on a yearly or quarterly basis. On gathering information, the NSS team had also contributed a small amount of donation to the home to take up the financial bearings of the senior citizens, especially for those who go through some financial constraints.

The visit remained a successful one and at the time of return from home the NSS team promised to revisit Ashram to stand beside the senior citizens in every possible way.

### **Cloth Distribution Camp**

**Date:** 22nd November 2021

**Time:** 03.00 PM

**Venue:** Chhatakol Slum Area, 540DumDumRoad, Surer Math,(NearDumDumJn.Station), Kolkata-700074, WestBengal

**No of Participants:** 27

**Objective:** The objective of the program was to distribute clothes to the poor and needy people of the locality.

“Service to mankind is service to God”

This noble thought of Swami Vivekananda inspires everybody to contribute towards the wellbeing of the world. Apparently in our journey of helping the world, we ally help ourselves, because it is not the receiver that is blessed, but it is the giver. These thoughts motivated to organize a Cloth Distribution Camp under the scheme of Social Awareness by the NSS and Extra Curricular Committee of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex.

Eventually this noble thought got dimensions and got executed on 22<sup>nd</sup> November, 2021. For this activity, reusable clothes were collected from students and staffs before the scheduled date. On 22nd November, the NSS team reached the Chhatakol area where the students distributed clothes to almost 70 poor people and have also donated blankets thus, helping them to sustain moderately both in heat and cold.

The purpose of the activity was fulfilled with the reflection of smile on the face of the poor people on receiving the clothes which perhaps added a little bit of happiness to them, the students have also assured them to provide clothes and other necessary help whenever it is needed.

**With the motto:** The contentment and pleasure attained by one through helping the less fortunate is the greatest achievement we could ever have in our life.

### **Orphanage Home Visit Organized by NSS & Extra Curricular Activities Committee**

**Date:** 31st May 2022

**Time:** 04.00 PM

**Venue:** Vivekananda Seva Mission, Orphanage Serampore No

**of Participants:** 78

**Objective:** The purpose of this activity was to help the orphans by providing necessary stuffs to continue with their best practices.

A noble initiative has been taken by the students and staff members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with NSS and Extra Curricular Committee to conduct an "Orphanage Visit" under the scheme of Social Awareness on 31/05/2022.

They visited an Orphanage Home, Vivekananda Seva Mission near Prabhas Nagar, Serampore and organized a mini workshop for them. They took part in this noble cause under the guidance of NSS Team.

It was indeed a very satisfying experience for students, as they could bring smiles on children's faces. They realized the importance of little contribution and their social responsibilities towards the society.

The orphanage has given shelters to more than 100 orphans who have been nurtured there with care and concern in their bringing ups. The students distributed masks, sanitizers, notebooks and snacks to the children. They also engaged them with various games and fun activities. All the children looked very excited and cheerful.

The students have also listened to the experiences of the children and have promised to visit the orphanage again.

### **Tree Plantation Program Campaign on Environment & Tree**

#### **plantation program: "SAVETREE--SAVELIFE"**

**Date:** 17th July, 2021

**Time:** 04.00PM

**Venue:** South DumDum Municipality

**No of Participant:** 20

**Objective:** The aim of the program was to spread awareness about importance of plantation and environmental awareness.

The NSS and Extra Curricular Committee of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex have organized a "Tree Plantation Program" on 17th July, 2021 within the neighborhood area with the motto "TREE-OUR LIFE" under the scheme of Environmental Awareness. They have also shown a path to reuse the plastic waste bottle for the sapling's plantation. The NSS team has taken the initiative to plant around 120 trees by the students which has served the purpose of a forestation to spread awareness among others. In some places of our country summer may herald the beginning of the rainy season, while in other parts it may cast a dry spell without any water at all. The heat of the summer season is both the bane and blessing of most ecosystems. So, we need to hold our hands together to save trees as they will save our lives. Trees contribute to the environment by providing oxygen, improving air quality, climate amelioration, conserving water, preserving soil.

Variety has been maintained in the species of trees planted by the students. Various types of tree saplings like peepal, cinnamon, neem, eucalyptus and others were planted.

The NSS team leader talked about how planting trees helps to regulate the temperature and absorb all the carbon dioxide from the air. Principal Sir has explained how planting trees helps to make the surroundings greener and how trees serve as homes to many birds and animals. He also suggested that every student should at least plant one tree per year as it will help the world to fight against global warming. The day's event was brought to an end with the Principal's vote of thanks. All the students were suggested to distribute a sapling each to plant in their locality also.

The purpose of the activity was fulfilled with the students planting trees ranging from medicinal values to aesthetic ones and shared their messages with people around about the utility of the particular tree once its sapling is being planted. The activity was summed up with the pledge taking of continuing this program at a regular basis.

**National Pollution Control Day Celebration Organized by NSS &  
Extra Curricular Activities Committee in collaboration with  
Department of Automobile Engineering**

**Date:** 2nd December 2021

**Time:** 10.00 AM

**Venue:** Dum Dum Road and municipality area

**No of Participants:** 35

**Objective:** The aim of the program was to spread awareness among people regarding the detrimental impacts of pollution on society and its members; steps to be taken to control the pollution at all spheres.

The Department of Automobile Engineering along with NSS and Extra Curricular Committee of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex observes the National Pollution Control Day under the scheme of Environmental Awareness (2nd December) by preparing posters to spread awareness about controlling pollution.

2nd December is observed as National Pollution Prevention Day in order to commemorate those who lost their lives in the Bhopal Gas Tragedy in 1984. This day also aims to make people understand the need for preserving our natural resources. It also raises awareness about how to prevent pollution caused due to industrial waste release and human negligence.

Our students prepared posters to spread awareness how pollution can be controlled by planting trees and using the renewable form of energies for all our purposes. As the students of Automobile Engineering Department, they were quite keen to showcase the recent technologies of Hybrid and Electric Vehicles in order to prevent the pollution.

Teachers sensitized the students about the current scenario of environmental pollution, its disastrous consequences and suggested different methods to stop and control air pollution. The students observed this day through awareness raising activities requesting the society to "GO GREEN" and create a clean and pollution free environment for a healthy living. They made posters and did coloring activity with inspiring messages and also an informative short video on the agents of pollution and ways of minimizing them were shown to the students and invited community peoples in their virtual classrooms.

Students actively participated with great enthusiasm and took the pledge to save mother earth for themselves and for the coming generations.

**Awareness Program on Save Fuel Save Country Organized by NSS & Extra Curricular Activities Committee in collaboration with Department of Automobile Engineering**

**Date:** 17th December 2021

**Time:** 11.00 AM

**Venue:** Dum Dum Road and Room no- 212, Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex

**No of Participants:** 46

**Objective:** The aim of the program was to spread awareness among people regarding the arising problem of fuel energy crisis and importance of its optimized consumption.

The students of the Department of Automobile Engineering of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with our NSS and Extra Curricular Committee organized an event on the Awareness Program on Save Fuel Save Country under the scheme of Resource Awareness on 17/12/2021.

The students have prepared different model vehicles which run without fuel to inform our society about fuel consumption.

Fuel being one of the most important resources in our earth. But for the ever-increasing need of our daily life uses we are continuously exploiting the resources which are becoming the major reason for depletion of the resources still available although exhausting on a rapid rate.

The students of the NSS team have made different types of posters with awareness messages to highlight the issue of fuel crisis leading to severe problems in near future and therefore the need to cut short on its carefree consumption to fulfill every trivial need.

Different vehicles and gadgets have been demonstrated by the students that can be run and used with the help of renewable energies at cheaper cost, thereby assisting the people in fulfilling their daily-life needs.

The purpose of the activity was served by the students remaining abstained from using their vehicles run by fuel on that day. Few members of the team have also opted for a walk those stay nearby the college. The active participation of the students and staff members in the event made it a successful one.

### **Beti Bachao Beti Padhao Organized by NSS & Extra Curricular Activities Committee in collaboration with Department of Electronics and Communication Engineering**

**Date:** 24th September, 2021

**Time:** 11.00AM

**Venue:** Individual Residential Area of Students No

**of Participants:** 78

**Objective:** The aim of the program was to spread awareness among people regarding the need for imparting education to every girl child to give them a bright future.

The students of Department of Electronics & Communication Engineering of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with our NSS and Extra Curricular Committee organized an activity "Beti Bachao Beti Padhao" under the scheme of Gender Awareness on 24th January 2021 to aware our students as well as society. "Beti Bachao, Beti Padhao" is an initiative launched by the Government of India that aims to create awareness and progress the competence of well-being services envisioned for girls in India.

The main objective of the programme was to create awareness among the people about the importance of girl child. The bigger objective was to discourage them against the female feticide, a cancer for the society. There was a huge enthusiasm among the teachers and the students for the programme.

There was a string of activity such as Poster Making Competition, Essay Writing Competition involving our student's neighbourhood community peoples.

Then there were poster-making and Essay-writing competitions. More than 50 participants expressed their views through sketches and pen. Also our students volunteer few community people to encourage the society to encourage Beti Bachao Beti Padhao.

The aim of the program was to encourage a greater number of girls and women to start learning, educate themselves so as to live life not just with mere sympathy received from the patriarchal society, but to claim one's own survival with dignity.

### **Blood Donation Camp Organized by NSS & Extra Curricular Activities Committee**

**Date:** 7<sup>th</sup> October 2021

**Time:** 11.00 AM

**Venue:** Blood Collection Venue: College Campus for Donation to Lion's Club **No of**

**Participants:** 90

**Objective:** The purpose of this activity was to encourage people to donate blood voluntarily to save people at times of their need and emergency in this regard.

With great pleasure we would like to inform you that the Extra Curricular and NSS Committee members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with students had organized a "Blood Donation Camp" under the scheme of Health Awareness on 21<sup>st</sup> November, 2021 to help people facing difficulties in accessing blood at the time of emergency.

The camp was organized by the NSS team to help the people along with Thalassemia patients. The camp took place in room 418 and the event began with Principal Sir donating blood. The students of different streams of the institute too participated in the program.

Apart from students, staffs and other officials also participated in this event. The blood collected from this camp was to be given to the R.G KAR Hospital Government Thalassemia Hospital through Lion's Club. The NSS team had arranged for refreshments for those who donated blood in the camp. Students and others who had participated in this blood donation camp were given certificates and a small gift hamper.

To watch over the entire process and to collect the blood, a team of five doctors were put in charge. The institute had also arranged for a resting room for anyone who felt dizzy or sick after donating blood. Volunteers from a local club also had come to help the institute in organizing the blood donation camp. After the completion of the blood donation, the Principal thanked and appreciated everyone present in the camp. The day ended with the National Anthem and a heartfelt vote of thanks from the Principal of the college.

Motto of the campaign- "Donate Blood & Save Lives"

The program was a success and was ended with a pledge taking of reorganizing the camp at regular intervals to distribute blood to different organizations to reduce the crisis of supply at time of need.

### **Road Safety Campaign Organized by NSS & Extra Curricular Activities Committee**

**Date:** 21st March 2022

**Time:** 03.00 PM

**Venue:** Locality of College DumDum Road

**No of Participants:** 85

**Objective:** The purpose of this activity was to make people aware about following traffic rules and other protocols while moving on the road.

The Extra Curricular and NSS Committee members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex in coordination with the students had organized an activity of "Road Safety Campaign" under the scheme of Mass Awareness on 21st March 2022 to educate the students as well as society about road safety measures.

The purpose of this activity was to educate students as well as society the necessity to follow road safety protocols.

Road safety is a safety measure to reduce the risk of road accidents and road side injury because of the mistakes of people while driving on the road. We cannot count the daily road side accidents and death of people because of the driving mistakes and lack of road traffic rules followers. Every person going on the road has risk of injury or death.

The main objectives of the campaign are as follows:

- To create awareness on road safety among students and faculties.
- To understand the importance of a road safety and make aware about the importance of their and others life.
- To motivate the students and faculties to follow road safety.

The students and NSS team members have come out on the road with slogans to aware the common people about the need to follow the traffic rules and other safety measures while walking on the road. The rules to be followed while crossing the road have also been demonstrated by the students in nearby crossings.

The active participation of the students in this NSS activity have remained a successful one with the purpose of spreading awareness messages being served in and around the locality of the college.

### **Covid Care Program Organized by NSS & Extra Curricular Activities Committee in collaboration with Department of Basic Science and Humanities**

**Date:** 12th July 2021 **Time:** 03.00PM

**Mode of Conduct:** Online Platform for the people of South DumDum Municipality area **No of Participants:** 200

**Objective:** To spread awareness in our society about Covid protections to be adopted for fighting against this pandemic and achieve fitness.

The Extra Curricular Activities Committee and NSS members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex in coordination with the students had organized an activity of "COVID Care Program" under the scheme of Health Awareness on 12th July 2021 to help people in gaining knowledge about the various types of precautions and steps to be taken to fight against this pandemic in order to stay fit.

The Covid Care Programme administered by Mr. Ripu Sudan and other committee members aimed at imparting gainful knowledge for developing physical and mental well being amidst this pandemic.

The session helped more than 200 participants including students and local people of DumDum Municipality area who had registered in this activity to learn how to be safe in this situation.

### **AIDS Awareness Campaign Organized by NSS & Extra Curricular Activities Committee**

**Date:** 7th December, 2021

**Time:** 04.00PM

**Venue:** Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex for the local people of South Dumdum Municipality Area

**No of Participants:** 58

**Objective:** The purpose of this activity was to aware people about the spread of AIDS and steps required to fight it.

The Extra Curricular and NSS Committee members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex along with all students had organized an activity "AIDS

Awareness Activity" under the Health Awareness Scheme on 07th December, 2021 to spread awareness against AIDS.

The activity began with a motivational speech by our Principal Sir about the causes and symptoms of AIDS which can be avoided or overcome by following certain protocols. Students have made posters and have also given speeches about this disease.

The program was a call to the society to make them understand that people suffering from AIDS should not be kept isolated. They should be treated with care and should receive proper medical treatment. Few primary Blood Test of more than 35 local preregistered people done in collaboration with Medica Diagnostic Centre.

### **Vaccination Drive Organized by NSS & Extra Curricular Activities**

#### **Committee**

**Date:** 28th October, 2021 to 30th October, 2021 **Time:** 10.00AM

**Venue:** College Campus for local People **No of Participant:** 3000

**Objective:** The aim of the program was to vaccinate people helping them to fight against Corona virus.

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex, Dum Dum, holding the societal responsibility to Vaccinate the Society has successfully conducted the Free Vaccination Drive (2nd Dose) on 28th, 29th and 30th of October, 2021.

On the Inaugural Day i.e. 28th October, 2021, we have with us Hon'ble MLA, Smt. Aditi Munshi, MLA Rajarhat Gopalpur, as a Chief Guest. In her blessing words she appreciated the initiative taken by the Institute to combat with Covid-19.

In the afternoon, Hon'ble Minister Sh. Sujit Bose, Govt. of West Bengal also graced the occasion, and appreciated the vaccination drive with his blessing words.

In the Free Vaccination Drive 3000 approx. doses were given to students, alumni, faculties, staff and their family members along with huge numbers of local people.

## **Formation of the Clubs of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex**

The Student Clubs at Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex are established to provide a structured platform for students to pursue their interests, develop skills, and contribute to the campus community. The formation of these clubs is overseen by the faculties to ensure alignment with the Institute's values and objectives. A group of faculties and students constitute a club that focuses on a specific area such as academics, culture, sports, or social service.

The significance of student clubs lies in their role in fostering a vibrant campus life, promoting leadership and teamwork, and enhancing students' overall educational experience. Through active participation in clubs and with the help of the faculties, students gain practical experience, build networks, and develop a sense of responsibility and belonging, all of which are essential for personal and professional growth.

These clubs also play a crucial role in extending the Institute's involvement to the broader community, thereby reinforcing the values of civic engagement and service.

### **Purpose**

1. To act as the official forum for students and faculties to discuss and address student activities, concerns, and opinions related to the Institute.
1. To ensure that student clubs are self-sufficient in ideation and implementation of various events, service projects, and other student-led initiatives.
1. To provide opportunities for students to develop leadership, communication, and organizational skills through active participation in club activities and decision-making processes.
1. To motivate and support students in achieving academic success while promoting involvement in extracurricular activities that contribute to their holistic development.
1. To extend the involvement of students in community and parish activities, fostering innovation, entrepreneurial ventures, civic responsibility and strengthening ties between the faculties and students as well as Institute and the broader community.

## **Qualification and Responsibilities of Convenor**

1. Faculties of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex are supposed to hold the position of the convenor of different clubs.
1. The convenor is responsible for the overall administration and management of their respective club, including planning, organizing, and executing club activities in alignment with the goals and objectives of the Council and the Institute.
1. The convenor is responsible for selecting club members.

## **Qualification and Duties of Members**

1. Members must be registered as a student or as a faculty and staff at Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex.
1. Members must be selected by the convenor of the club and that needs to be approved by the HOI.
1. Members must adhere to the Institute's code of conduct, displaying behavior that reflects positively on the club and the institution.
1. Members are responsible for contributing ideas, skills, and efforts towards the planning and execution of club projects.
1. Members are expected to regularly attend and actively participate in club meetings, events, and activities, contributing to the club's goals and initiatives.

### List of Clubs:

Sl	Name of the Clubs	Objectives
1.	Science and Technology Club	To aware students about the recent development in Science and Technology over the world. To make the students inclined for the Science Affairs through various events such as Science Exhibition, Science Magazine.
2.	Robotics Club	To apply engineering concepts through robot building and programming. To enhance critical thinking by tackling robotics challenges. To inspire innovation through unique robotic projects. To foster collaboration on complex projects. To equip members with skills for future careers in robotics and technology
3	Nirman Club	To enhance students' knowledge and practical skills in civil engineering and construction through workshops, seminars, and hands-on projects. To encourage innovation and creativity in construction techniques and sustainable practices, motivating students to explore new ideas and solutions. To provide opportunities for students to engage with industry professionals, gain insights into the latest trends and technologies, and prepare for their future careers. To organize and support various construction-related projects and competitions, allowing students to apply theoretical knowledge in practical settings
4	Mathematics Club	To explore mathematics beyond textbooks and apply it in day-to-day situation To develop critical thinking and logical reasoning powers among the students. To develop co-operative spirit in group learning. To inculcate feeling of discovery and development.
5.	Coding Club	To develop members' coding abilities through practice and projects. To improve logical thinking by tackling coding challenges. To promote creativity in developing software and apps. To encourage teamwork on coding projects and hackathons. To equip members with skills for careers in software development and technology.
6.	Art and Craft Designing Club	To encourage students to explore their artistic talents and foster creativity in engineering students. To Provide opportunities for members to develop and refine their art and craft skill To create a sense of community and camaraderie among students with a shared interest in art and craft. To foster collaboration among members on various artistic projects and initiatives. To promote exposure to different art forms and styles to broaden artistic horizons. To organize art exhibitions, craft fairs, and workshops to showcase members' work and share it with the college community.

## One Day Seminar on Industrial application of IoT Technology

Date: 17th November, 2021

Venue: Online Platform

No of Participants: 110

Objective: To enlighten about Industrial application of IoT Technology

It gives us immense pleasure to inform you that the Science and Technology Club in association with Department of Electronics and Communication Engineering of DSCSITSC and in collaboration with The Institution of Electronics and Telecommunication Engineers (IETE) Student Forum of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has organized a One Day Seminar on "Industrial application of IoT Technology" on 17th November, 2021 in online mode.

Prof. (Dr.) Jayanta Kumar Roy- Chairman of IETE Kolkata Centre was the Chief Guest as well as Guest speaker. The event was virtually inaugurated with a Welcome Address by Prof. (Dr.) Saradindu Panda, Principal, DSCSITSC. At first our honourable speaker highlighted the role of ISF and shared his experiences to encourage the new generation to work in a team followed by sharing his vivid knowledge and experience about every aspect of technology. He explained different fields and applications of the topic.

A small token of honor -Memento was presented by the Institute to the Guests.

The seminar ended successfully with a vote of

thanks. Glimpse for your reference.

### **A one-day seminar on “A problem that can’t be solved with the IF-ELSE condition”**

**Date:** 25-04-2022

**Venue:** College Campus

**Objective:** To aware students about Crisp Set, Boolean Logic and what is FUZZY.

Department of Electronics and Communication Engineering in association with Science and technology Club of DSCSITSC organized a one-day seminar on “A problem that can’t be solved with the IF-ELSE condition "on 25-04-2022 in Room No.418 at Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex.

The program started at 12:05 am with the welcome address by Dr. Abhigyan Ganguly, HOD ECE. The main goal of the seminar is to give students important advice on how and why do we need Fuzzy Clustering. The Fuzzy C is a method of clustering which allows one data to belong to two or more clusters and is frequently used in image segmentation and pattern recognition. Some of the things that Fuzzy system can do likewise Fuzzy washing machine/ camera/ AC, Diagnostic system, Segment tumors from brain MRIs, Discover biomarkers for cancer, Quality improvement of medical images, Predict rainfall, Recommend when and how much fertilizer to be used, and many more. Also the students can learn easily that how to use the rules of this method which will Department Of Electronics and Communication Engineering effectively elaborate the research or project challenge in order to give the students the tools they need to complete research or projects at a higher level.

At the end of the program, Dr. Abhigyan Ganguly, HOD ECE expressed gratitude to all participants and delivered vote of thanks.

The session concluded with a memento presentation to the honorable speaker and the group photography. Outcome:

Students were aware about Crisp Set, Boolean Logic and what is FUZZY.

Students get knowledge about fuzzy set theory, Membership function, Fuzzy set vs Crisp set. Some of the things that Fuzzy system can do

Familia with the Fuzzy Logic Process and Fuzzy Systems

## Virtual Extempore Event

**Topic:** An i-Navigate Workshop on Line Tracing Robot

**Date:** 07.09.2021

**Venue:** online

**Objective:** To introduce the students about working, Manufacturing, and design of line tracing robot.

Robotics club of DSCSITSC has organized one day Virtual Extempore Program on an i-Navigate Workshop online Tracing Robot 7<sup>th</sup> november, 2021 at DSCSITSC.

Students are motivated to participate in different robotics competitions at state and national level. They gain knowledge of basic dynamics of line tracing robots.

Glimpse of the event

## Virtual Extempore Event

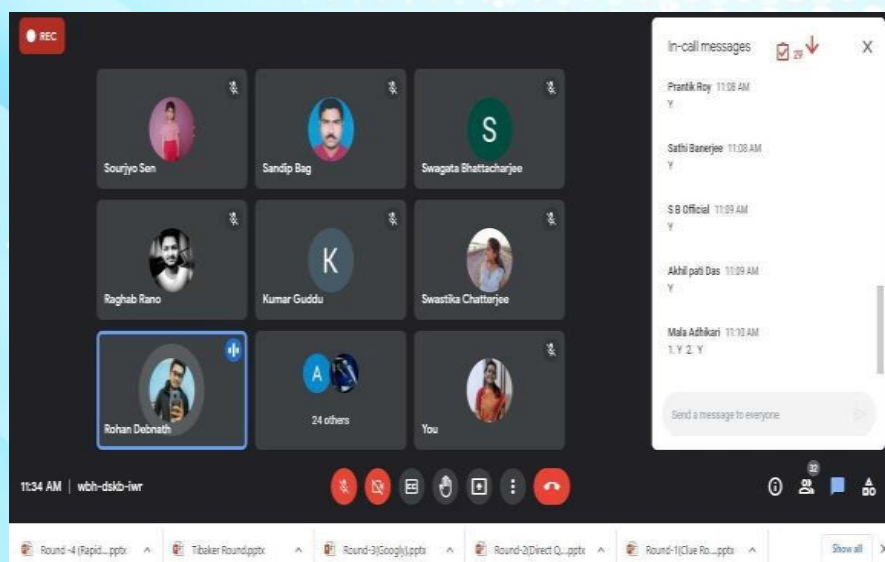

**Topic: Robocon – 17 with theme “The Landing Disc**

**Date: 07.02.2022**

**Venue: online**

**Objective:** To introduce the students about working of the robotics club and about various competitions To introduce activities conducted under club like Manual workshop, Auto-robot workshop, Line Tracer, Basic lectures on Robotics

Students were motivated to participate in different robotics competitions at state and national level. The history of robotics club and introduction to robotics club was explained by Prof. V.P. Rao. Robocon team leader Anurag Shaw explained different types of robots made by Team Vulcans, Team e-Yantra members and different activities conducted under robotics club.

### **Essay writing on Lean construction”.**

**Date: July 23, 2021**

**Platform: Online**

**Objectives:** To encourage participants to research and understand lean construction principles and their application in the construction industry.

On July 23, 2021, an online essay writing competition on “Lean Construction” was held, aimed at deepening participants' understanding of lean principles in construction. This event provided a platform for students to explore and articulate their thoughts on how lean construction techniques can enhance efficiency, reduce waste, and improve overall project outcomes. A total of 28 participants took part in the competition, showcasing their research and writing skills on this critical topic.

The competition was conducted online, allowing participants to submit their essays electronically. Each participant was required to write an essay on a specified topic related to lean construction, such as the implementation of lean principles in construction projects, the impact of lean techniques on

project efficiency, or case studies of successful lean construction projects.

The essays were evaluated based on criteria including clarity of argument, depth of research, originality, and relevance to lean construction principles. Judges comprised faculty members and industry professionals who reviewed the essays and provided constructive feedback to all participants.

#### **Event Outcomes**

Participants demonstrated a strong grasp of lean construction principles, with essays reflecting comprehensive research and insightful analysis. The competition helped participants improve their writing and analytical skills, allowing them to effectively communicate complex ideas. The event raised awareness about the advantages and challenges of lean construction, contributing to a greater understanding of how lean practices can be applied in real-world scenarios.

## **Project Competition "Builder".**

**Date: March 21, 2022**

**Location: College Campus**

**Objective:** To inspire students to develop and present innovative solutions to current problems in the construction industry.

On March 21, 2022, the college campus hosted a project competition titled "Builder," designed to showcase and evaluate innovative projects related to construction and civil engineering. The competition aimed to provide a platform for students to present their creative solutions and practical applications in the field of construction. A total of 51 participants took part in the event, presenting a diverse range of projects that highlighted their understanding of current challenges and advancements in the construction industry.

### **Event Overview**

The "Builder" project competition was held on the college campus, with participants presenting their projects in front of a panel of judges and an audience of peers. The competition featured a wide range of projects, including innovative construction techniques, sustainable building practices, advanced materials, and practical solutions to industry challenges. Each participant or team had the opportunity to present their project, followed by a Q&A session where judges and audience members could ask questions and provide feedback.

The projects were evaluated based on criteria such as originality, feasibility, technical accuracy, and presentation quality. Judges included faculty members and industry professionals who assessed the projects and selected the winners based on these criteria.

### **Event Outcomes**

- **Showcased Innovation:** The competition highlighted a variety of innovative and practical solutions in construction, demonstrating participants' creativity and technical skills.
- **Enhanced Learning:** Participants gained valuable feedback from judges and peers, which contributed to their understanding of project development and presentation.

## Observation of “Break the Code” Unlock the Treasure an IQ Measure

**No. of Participants: 45**

**Venue: Online Platform**

**Date: 23.10.2021**

**Time: 5:00P.M**

**Objective of the Event-** To encourage students to think outside of the box and find creative solutions to the problems they face

The Mathematics club of SurTech has organized a competition on reasoning, “Break the Code” Unlock the Treasure an IQ Measure on 23.10.2021 on online mode.

The competition was started by the speech of Principal sir. He shed light on the importance of mathematical knowledge in the curriculum of engineering discipline and in the cognitive development of an engineer. Students participated in groups, total 15 numbers of groups were there. The event was designed to encourage students irrespective of departments to boost and employ their cognitive brilliance. Different kinds of mathematical puzzles were given as challenges and students were supposed to solve them within the due time.

It was ended by announcing the winning group and vote of thanks to the audience by Mr Arindam Mukherjee, member of Mathematics club.

## Observation on Webinar on History behind PI

**No. of Participants: 35**

**Venue: Online Platform**

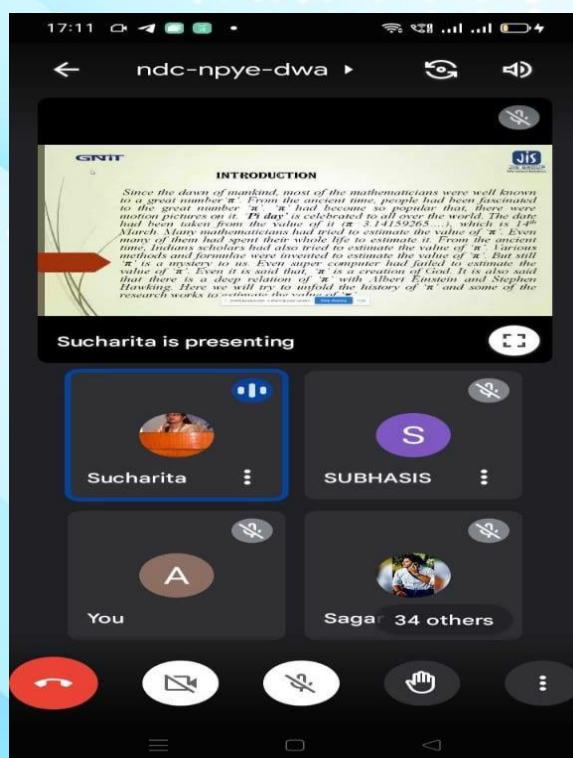

**Date: 14.03.2022**

**Objective:** To make mathematics more relatable and fun.

The Mathematics Club of SurTech has celebrated “PI Day” on 14<sup>th</sup> March, 2022 from 5:00 pm onwards by arranging a Workshop on “The History Behind PI”. The Speaker of the event was Dr. Babulal Seal, Professor, Department of Statistics and Mathematics, Alliah University.

More than 50 students have taken part in the program and the session was very interesting, and all the participants enjoyed and interacted throughout the session. The program was concluded with an end note and Vote of Thanks by Ms Pallabi Bose (Convenor, Mathematics Club).

Glimpse of the seminar are attached herewith.

## CodeHub

**Date:** 17/03/2022

**Place:** CSE Lab 5 (Offline mode), HackerEarth (Online mode)

**Participants:** College students who had registered for the

contest **Objective:** To enhance problem-solving and debugging skills

The Department of CSE has organized a online coding contest on 17th March 2022 in virtual platform google meet as well as at CSE lab-5 in order to promote coding skill and attitude of the students.

Coding enhances problem-solving and debugging skills, giving the real-time fun of budding technocrats. Coding teaches a student to find the easiest solution in the quickest possible way. As one person starts solving harder and harder problems in live-contests of coding, his or her analytical and rational thinking intensifies.

**Platform supporter: HackerEarth**

Total Participation: 124

Top performers:

- **1st - Gourav Shaw - 85/120 mins. (CSE 2<sup>nd</sup> Year)**

## **Origami Making Competition by Art & Craft Club**

**Event Date: November 29, 2021**

**Venue: College Auditorium**

**Objectives:** To emphasize the significance and beauty of origami as a traditional and intricate form of artistic expression.

The Art & Craft Club at Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex (DSCSITSC) organized an enchanting "Origami Making Competition" on November 29, 2021, held at the prestigious College Auditorium in Room No. 418. This offline event celebrated the art of origami, providing a physical space for students to showcase their creativity and precision in paper folding.

**Event Highlights:**

- **Diverse Participation:**
  - The competition witnessed a robust response, with 45 students participating eagerly, showcasing the diversity of artistic talents within DSCSITSC.
- **Variety of Origami Creations:**
  - Participants presented a spectacular array of origami creations, ranging from traditional designs and animals to intricate geometric shapes and modern adaptations. The variety showcased the versatility of origami as an art form.
- **Venue - Room No. 418 (College Auditorium):**
  - The College Auditorium, Room No. 418, provided a grand and inspiring setting for the event, creating an atmosphere conducive to artistic expression.
- **Live Judging Panel:**
  - An esteemed panel of judges, comprising origami enthusiasts and faculty members, conducted live evaluations of the entries, assessing creativity, complexity, precision, and overall presentation.
- **Community Interaction:**
  - The offline setting facilitated active engagement as participants and spectators interacted, fostering a sense of community and collaboration among participants.

**Outcome**

- The competition served as a canvas for participants to showcase their artistic brilliance, emphasizing their talent, dedication, and mastery of the intricate art of origami.

A large group of students in school uniforms are sitting on the floor of a hall, holding up colorful paper crafts and cheering enthusiastically. The students are arranged in rows, and the hall has a pink floor and red walls. The students are holding up various colorful paper crafts, including paper flowers and paper fans. The students are smiling and looking towards the camera. The hall has a pink floor and red walls. The students are sitting on the floor, and the hall is filled with students. The students are holding up their crafts, and the hall is filled with a sense of excitement and celebration.

## **"Precise Folds: The Art of Origami" A competition by Art & Craft Club**

**Event Date: June 8, 2022**

**Venue: College Auditorium**

**Objectives:** To encourage Artistic Expression Through Paper Folds

The Art & Craft Club at Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex (DSCSITSC) orchestrated a captivating "Precise Folds: The Art of Origami" competition on June 8, 2022. Hosted in the esteemed College Auditorium at Room No. 418, this offline event aimed to celebrate the ancient art of origami, providing a physical space for students to showcase their precision and creativity through the delicate folds of paper.

**Event Highlights:**

- **Diverse Participation:**
  - The competition witnessed an impressive turnout, with 52 students participating eagerly, showcasing the diverse artistic talents within the college.
- **Variety of Origami Creations:**
  - Participants presented an array of origami creations, ranging from traditional designs to intricate geometric shapes and contemporary adaptations. The variety showcased the versatility of origami as an art form.
- **Live Judging Panel:**
  - An esteemed panel of judges, consisting of origami enthusiasts and faculty members, conducted live evaluations of the entries, considering precision, creativity, and overall presentation.
- **Community Interaction:**
  - The offline setting facilitated active engagement as participants and spectators interacted, fostering a sense of community and collaboration among participants.

**Outcome:**

### **1. Celebration of Precision in Origami:**

- The event successfully celebrated the precision and intricate craftsmanship inherent in the art of origami.

## **Photography Club's "Nature from Your Balcony" Competition**

Date: 22 November 2021

The Photography Club of Surtech recently organized an innovative competition titled "Nature from Your Balcony," encouraging students to capture the beauty of nature as seen from their own homes. The competition aimed to inspire students to explore and appreciate the natural world around them, even within the confines of their living spaces.

Students participated enthusiastically, submitting a variety of photos that showcased their unique perspectives of nature from their balconies. The photographs ranged from stunning sunsets and vibrant greenery to birds and other wildlife that frequent urban environments. Each submission reflected the students' creativity, attention to detail, and appreciation for the environment.

After careful consideration, a panel of judges selected the winning photograph based on criteria such as composition, creativity, and the ability to convey the beauty of nature in an everyday setting. The winning student was recognized for their exceptional talent in capturing a moment of natural beauty from their balcony.

The "Nature from Your Balcony" competition was a great success, providing students with an opportunity to connect with nature and showcase their photography skills. The event highlighted the importance of finding beauty in the world around us, even in the most familiar of places, and encouraged students to continue exploring their creative potential.

The winner of the competition is Ankit Patra EE 2nd year. The photo is attached herewith.

## Independence Day

**Date: 15<sup>th</sup> August 2021 Venue:**

### College Campus

**Objective:** The program aimed to raise awareness about the sacrifices made by freedom fighters for the freedom movement and independence from British rule.

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex celebrated Independence Day 2021, marking the end of British rule in 1947 and the establishment of a free Indian nation. The Principal, Dr. Saradindu Panda, inaugurated the event, hoisting the flag and delivering a speech about the day's significance to students, staff, and directors, heads, and AO. A few photographs of the event are attached herewith.

## Republic Day

**Date: 26th January 2022.**

**Venue: College Campus**

**Objective: To raise awareness of the significance of the passage of the Indian Constitution.**

**Report:** With great pleasure we would like to inform you that the students, faculties and staff members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex celebrated Republic Day on 26th January, 10.00 AM onwards in the Hybrid Mode i.e. the flag unfurling took place in the Physical Mode whereas the students participated through the Virtual Mode. The celebration started with the Indian National Flag unfurling by our respected Principal Sir Prof. (Dr.) Saradindu Panda. Dr. Panda expressed the need to practice constitutional rights and to be aware of the same. After the flag unfurling, the cultural program started which was streamed in Facebook Live also. About 105 students, faculties and staff participated in the event through Online and Offline Mode. There were about 18 special performances by the students which were really moving sincerely from their heart. Some of the snapshots are attached herewith.

## **Online Quiz Contest on the Films of Satyajit Ray**

Date: 4<sup>th</sup> May 2022

Platform: Online

The Quiz Club of Surtech organized an online quiz contest focused on the iconic films of Satyajit Ray, one of India's most celebrated filmmakers on 4<sup>th</sup> May 2022. The event aimed to engage students with the rich legacy of Satyajit Ray's cinema, fostering an appreciation for his contributions to Indian and global cinema.

Participants from various departments joined the online quiz, demonstrating their knowledge of Ray's films, including classics such as "Pather Panchali," "Charulata," and "Shatranj Ke Khilari." The quiz covered a wide range of topics, from the themes and characters in Ray's movies to his unique filmmaking techniques and contributions to the world of cinema.

The competition was conducted in multiple rounds, with each round becoming progressively more challenging. Students showcased their enthusiasm and deep understanding of Satyajit Ray's work, making the contest both exciting and intellectually stimulating.

The event concluded with the announcement of the top scorers, who were recognized for their outstanding performance in the quiz. The winners were celebrated for their knowledge and passion for cinema, particularly the works of Satyajit Ray.

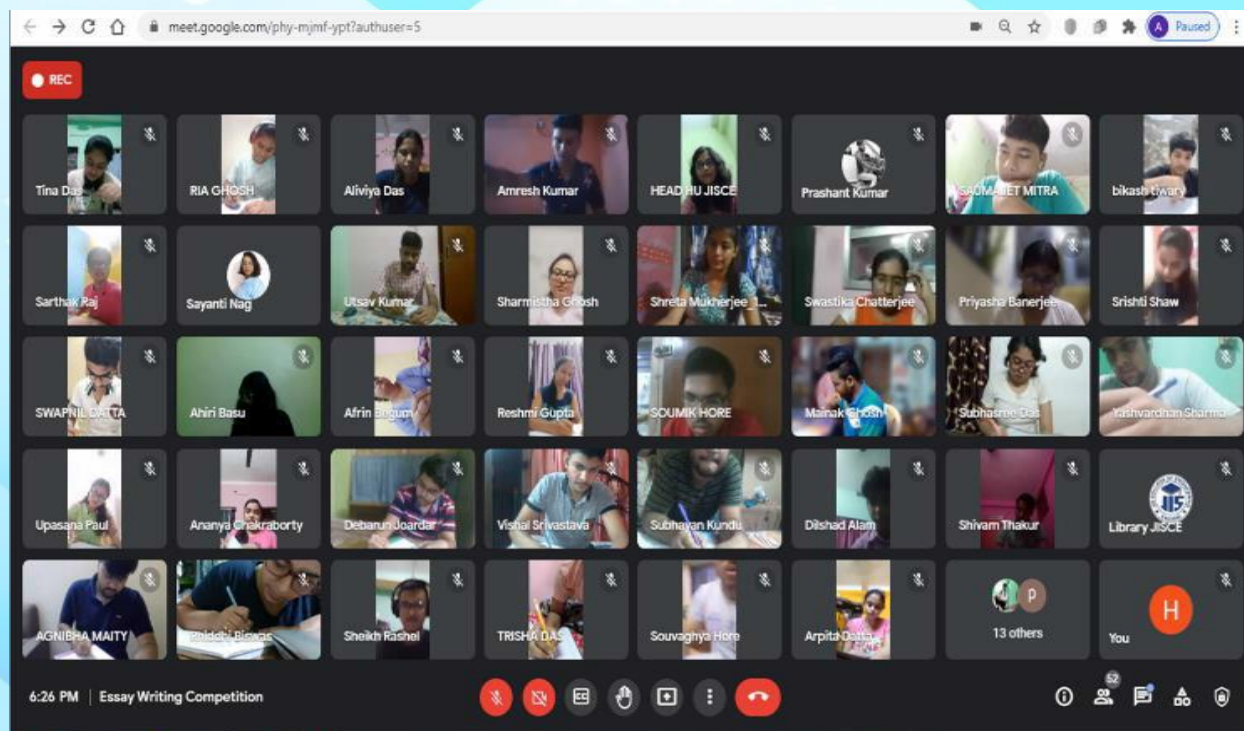

The online quiz contest was a successful initiative by the Quiz Club, bringing students together to explore and appreciate the cinematic genius of Satyajit Ray. The event not only tested the participants' knowledge but also deepened their understanding of the cultural and artistic significance of Ray's films.

## **Video Making Competition: Covid Awareness Program**

Date: 24.11.2021

Time: 3.00P.M

**Objective of the Event-** To raise awareness among students of the covid 19 protocols and preventive measures.

The Documentary and Drama Club of Surtech has arranged a video making competitions among students irrespective of the departments. The event was held online. The theme of the video is the dissemination of information of covid 19 pandemic. Students from various departments participated in the event and displayed unparalleled talent in video making. One of these videos was selected as the best one. The student who stood first in the competition is Sajal Mondal from AUE department. His video was projected in the event.

The event ended with echoing notes of optimism and hope.

## **Observance of the National Technology Day at the Cultural Fest**

Date: 25.04.2022

Venue: Auditorium

Objective of the Event- To serve as a platform for raising awareness about the significance of technology in our daily lives and to encourage a more critical perspective on its role.

On 21.05.2022, the Documentary and Drama Club of our institute observed National Technology Day by presenting a captivating play at the annual Cultural Fest. The play was crafted and presented on 11.05.22 and it was appreciated by all the faculties. The same was selected as a coveted performance at the cultural fest.

The play, with technology as its central theme, not only entertained the audience but also conveyed a powerful message about the role of technology in our lives. The play was performed in front of a diverse audience, including students, teachers, and parents. The theme of the play, "Technology in Our Lives," was chosen to commemorate National Technology Day. The storyline revolved around the impact of technology on society, individuals, and relationships. The characters in the play showcased both the positive and negative aspects of technology, emphasizing its influence on communication, education, and daily life.

The Drama Club's presentation at the Cultural Fest in honor of National Technology Day was a significant and insightful event. By using the power of theater, the club effectively conveyed the message about technology's impact on our lives, leaving the audience with food for thought. This creative and innovative approach to celebrating National Technology Day should be commended for its ability to blend education, entertainment, and awareness.

## Seminar on Rainwater Harvesting

**Date:** March 21, 2022

**Location:** College Campus

**Objective:** To acquire better utilization of reuse of water

The Rainwater Harvesting Discussion aimed to educate and engage participants about the importance and implementation of rainwater harvesting systems. the Rainwater Harvesting Discussion achieved its objectives by enhancing participants' understanding of rainwater harvesting, encouraging its adoption, and facilitating the sharing of best practices. The event provided valuable educational content and fostered a sense of community around water conservation efforts.

### Outcome

Participants gained a thorough understanding of rainwater harvesting systems, including their benefits for water conservation, cost savings, and environmental impact. The discussion provided practical information on designing and implementing rainwater harvesting systems, with a focus on local conditions and needs.

Objective: To aware our society about Covid protections

The Extra Curricular and NSS Committee members of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex had organized an online activity to aware our society about Covid protections once again at the time of unlocking. The purpose of the campaign was to remind people about good hygienic practices, physical distance maintaining habits, providing tips for safe food practices and other basic health tips. The need to remain alert, follow all health protocols and save them from getting infected is equally essential for our society while we are going through unlocking period.

Stay home from work or school until you are free of fever, signs of a fever, and any other symptoms for at least 24 hours and without the use of fever-reducing or other symptom-altering medications.

## Online Essay Competition

**Date:** 11.09.2021

**Platform:** Online

**Objective:** To foster critical thinking and creativity.

The Literary Club of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has organized an online activity on "Essay Competition" on 11th September 2021 to motivate the students and encourage them to boost up their creativity skills even at the face of pandemic. Students were asked to submit their drafts on the topic "Scenario of COVID-19 and POST COVID-19" upon which an interactive session was held by the teachers and the students at the event. The first half of the session was marked by the elaboration of the key points by the students regarding their essays. The participation of candidates in this activity has given it a big success and the program ended on a good note with a vote of thanks to all the coordinators of the event.

## Painting and Sketch Competition

**Date:** 21.04.2022

**Platform:** Online

**Objective:** to encourage students in extracurricular domain

The Literary Club of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has conducted “Painting and Sketch Competition” on 21<sup>st</sup> April 2022, with the students of all departments. Students were given full freedom to opt for themes of painting according to their choice. This decision was taken mainly for the 1<sup>st</sup> year students, to welcome them to take part in the club activities without any hesitation. The relaxation of theme setting for the activity has helped in receiving a good number of response from the 1<sup>st</sup> year students. As this was solely considered to be a fun- time activity to involve students at a large number in extracurricular domain, therefore certificates of appreciation were provided to all without any distinction of merit. The activity ended on a good note with flying colours of success.

## One Day Yoga Camp

**Date:** February 15, 2022

**Location:** College Auditorium

**Objective:** To spread knowledge of the advantages of yoga, such as its effects on mental clarity, emotional stability, and physical health.

The whole world is trying to come out of the grip of Covid 19 Pandemic and trying to leave a normal happy life. In this transition time, from new normal to normal life we know Mental well-being is as important as physical well-being. After all, the mind can accomplish things we would physically not expect. The Yoga

and Meditation Club of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex in collaboration with Patanjali Yog Shivar arranged a One Day yoga Camp at College Campus on 15th February, 2022. In the camp, the students, faculty members and other members of SurTech along with our respected Director Sir and Principal Sir participated enthusiastically for wellness and meditation sessions, as well as an active yoga session, conducted by Patanjali Yog Shivar- Madam Kanchanji Jaiswal and Madam Manju ji.

The students were taught the right way to practice Yoga postures to ensure release of stress and toxins from the body and breathing exercises to ensure healthy respiratory systems and proper metabolism which are the main weapons against the deadly pandemic. After each meditative session, the benefits of meditation and how to meditate were taught. Similarly, after every asana, its benefits, its pros and cons were discussed in detail by the instructors.

The general awareness of yoga was raised as participants developed a deeper comprehension of the physical, mental, and psychological benefits of yoga.

# Library Resources

## Library Services

The Library is an information resource center providing books, magazines, periodicals, and newspapers. Computers offer Internet access to online databases of full text periodicals and electronic books. The Library offers study rooms, course reserve materials, and photocopy machines.

The Library has more than 42,650 books (according to Accession Register), 07 Newspaper and 07 Journals and Magazines are purchased by the Library on regular basis. Besides these, 02 carrier oriented journals and 01 carrier oriented newspapers are purchased regularly for students so that they make prepare themselves for different competitive examinations. The Library, besides having a huge collection of books on engineering, science and humanities offers library services through its various Divisions.

Capable of accommodating 90 students, the DSCSITSC Library have CD-ROMS, E-journal, E-Books, magazines, Newspaper, B.O.G. reports, subject dictionaries, career guide books, ready references and previous years' question papers (Online + offline). The library provides a free and congenial atmosphere for sharing awareness, wisdom and information.

The whole Library is under the surveillance of CCTV.

**Area: Total Carpet area 7346 sq.ft.**

## Library Opening Hours

Other than the holidays and Sundays, library remains opens on Monday to Friday: 8:00 a.m. to 8:00 p.m.

Saturday: 8:00 a.m.to 4:00 p.m.

## Library Resources (Printed Document)

Text Books: 30,662

Reference Books: 11,988

Hard copy Journal & Magazine: 07 (Magazine) & 02 (Journals), Newspaper: 8 (7 Daily and 1 weekly)

Previous year question papers are also available in printed form.

## E-Resources

E-books: 415

E-Journal: 201+

Database : More than 50,000+ Indexed Journals

CD/DVD: 75+

## On-Line Text based Information for IEEE ASPP Online- Tier 3

201 no's of online E-journal are fully Downloadable

# Library Resources

## **National Digital Library of India (Govt. of India)**

Repository hosts contents for multiple subject domains like Technology, Science, Humanities, Agriculture and Others Repository integrates contents from different Indian Institutional repositories. NDLI is designed to hold content of any language and provide interface support for 10 most widely used Indian languages. The books are available in Indian languages. As the books are being scanned, it has provided an opportunity for developing the Optical Character Recognition (OCR) software of Indian languages. The objective is to collect and collate the metadata and provide a full-text index from various digital libraries, both domestic and international, as well as from other relevant sources. It is a digital repository containing articles, textbooks, audio books, videos, lectures, fiction, simulations and all other kinds of learning media.

## **Wiley E-Books**

Library has Wiley e-book subscription. Wiley E-Book is an IP-based service. Total No. of E-Books Title - 415.

## **E-Books with FTP Server**

Remote Access of the available E-books and other E-Study Materials in our library has been made through a FTP Server.

## **CD-DVD Corner**

The audio, video and other digital documents are preserved in the DSCSITSC central Library, mainly in CDs and DVDs. These are accessioned as NB (Non Book). More than 75 CDs, DVDs are available in our collection on different subjects under the domain of Engineering.

### Memorandum of Understanding

This Memorandum of Understanding ("MOU") is between Infosys Ltd, a company incorporated under the laws of India with its registered office at Electronics City, Hosur Road, Bangalore – 560 100, India (hereafter referred to as "Infosys"); and **Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex** a university / engineering college committed to educational excellence having its office **540 Dum Dum Road, Suremath, (Near Dum dum jn station), Kolkata-700074, West bengal** (hereafter referred to as "Partner").

#### RECITALS:

- A. WHEREAS Partner has been established for the purpose of enriching the technical education process and to jointly work for enhancing the quality of education imparted to students of all the engineering disciplines in the field of Information Technology (IT).
- B. AND WHEREAS Infosys wishes to collaborate with the Partner for the purpose of enriching the technical education in new subject areas, learning-teaching process and to jointly work for enhancing the quality of education imparted to students of all the Information Technology ("IT") disciplines.
- C. AND WHEREAS Partner with assistance from Infosys has goals for enhancing the quality of the technical education for students thereby enabling them to meet the industry needs and to be recognized globally.

#### NOW THEREFORE THE PARTIES HEREBY ACKNOWLEDGE AND AGREE AS FOLLOWS:

1. This MOU is for collaboration between both parties, for mutual benefit, to enhance the quality of the educational experience of students of the Partner and for the specific purposes detailed in Annexure I of this MOU
2. Intentionally Omitted
3. The Partner shall be responsible for providing the requisite infrastructure, network and internet access and any other facility required for the education and training.
4. It is agreed that the terms and conditions of any agreed cooperative project (s) as outlined in Annexure I of this MOU shall be the subject matter of separate definitive agreements to be negotiated and agreed upon by the Parties and/or any third parties, wherever applicable,

**Memorandum of Understanding (MoU) with Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex and Infosys on 11/01/2022**

# **ANNUAL REPORT 2021-22**

# Department of Basic Science & Humanities

## **Vision of the department**

To provide guidance to all aspiring technocrats through well-developed & innovative teaching learning methodology and to foster students towards R & D, entrepreneurship activities for their future prospectus with strong foundations in Mathematics, Chemistry, Physics and Communications skills.

## **Mission of the department**

DM1: To emphasize the importance of Basic Science and develop a natural flair for Engineering & Technology

DM2: To promote academic excellence in fundamental Science & Humanities

DM3: To produce competent future technocrats through innovative teaching-learning methodologies

DM4: To create an environment where students' Idea, Creativities and R & D activities are encouraged.

DM5: To create an environment where students' Idea, Creativities and R & D activities are encouraged.

# Department of Basic Science & Humanities

## Program Outcomes

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

# Department of Basic Science & Humanities

- \* **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- \* **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Basic Science & Humanities

## **Brief Overview of the Department**

The Department of Basic Sciences and Humanities has been a part of DSCSITSC right from the inception of the college in 2009.

It consists of the core branches of basic science- Physics, Chemistry, Mathematics, Biology along with subjects of Humanities domain.

These subjects lay the essential foundation for the various branches of engineering. The focus is to create an understanding of the basic principles of science and harness the knowledge of the students for designing, building and maintaining a product or process that solves a problem and fulfils a need (technology).

The Department has well-equipped laboratories of Physics, Chemistry and Language to promote overall development of the students by enhancing their practical skills along with incorporation of sound theoretical knowledge.

It also encourages students to take up challenging projects and internships at the National and International level in order to fine-tune their technical skills.

The department garners the importance of an up-to-date English Communication to increase proficiency in English Language to cope up with the cut throat competition in the job market.

We equip students to imbibe best humane and professional values.

The Basic Sciences and Humanities department have always taken the initiative as first year teachers in all the B. Tech streams to develop the moral characters of the concerned students.

The department of BS&H has rich curriculum and allied activities to provide a comprehensive education for B.Tech graduates. It prepares them to be technically well off, to be critical thinkers, productive citizens, and leaders in a wide range of careers; government as well as an array of managerial options in the private sector.

# Department of Basic Science & Humanities

## HOD Message

Dear colleagues and students,

Welcome to Basic Science & Humanities Department of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex.

The Basic Science & Humanities Department is the backbone of the entire engineering education system. It comprises Mathematics, Physics, Chemistry, Biology, English and Humanities. The faculty members have undertaken the methodology of classroom teaching based on application of innovative strategies, comprehensive lectures, regular assignments and active interaction between teachers and students. Hence, the department plays a key role in assessing, evaluating and improving the multi-dimensional skills of the students to build them as the upcoming pillars of foundation of the nation.

Our departmental laboratories are supported by modern equipment to help the students to attain practical knowledge, accurate application and perfection over the presentation skills.

The department is supported by highly qualified faculty with good teaching experience, who put consistent effort to meet the expectations of the students. They are easily accessible and approachable so that students feel free to come for counseling, guidance or for clarifications. They also play a vital role in imparting placement training in quantitative aptitude, verbal ability and soft skills to pre – final year students.

A quotation for all my students

“An investment in knowledge pays the best interest” - Benjamin Franklin

Wishing you all a successful and rewarding academic year!

**Dr. Dipankar Das**

## **Department of Civil Engineering**

# **ANNUAL REPORT 2021-22**

# Department of Civil Engineering

## **Vision of the department**

To be recognized as an internationally acclaimed technical department by achieving excellent standards of quality technical education, keeping pace with the rapidly changing technologies, research and innovations and to produce Civil Engineers of global standards with the capability of accepting new challenges

## **Mission of the department**

DM1: To impart fundamental knowledge of engineering and its practical application by developing state-of-the-art facilities for the department of Civil Engineering.

DM2: To nurture and build people in a rewarding and inspiring environment by fostering creativity, empowerment, innovation and entrepreneurship.

DM3: To build Industry – Institute linkage for quality improvement by promoting participation of industries in the area of consultancy

DM4: To encourage the students towards higher education through research and development activities

# Department of Civil Engineering

## Program Outcomes

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

# Department of Civil Engineering

- \* **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- \* **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Civil Engineering

## Program Educational Objective (PEO)

**PEO1:** Graduates of Civil Engineering department shall become successful in their professional through strong foundation in core principles and ability of analyzing and solving complex engineering problem in real life

**PEO2:** Graduates will excel in the field of higher studies through lifelong learning.

**PEO3:** Graduates will excel in effective communication, teamwork, and leadership, enabling them to work collaboratively in multidisciplinary settings and take on leadership roles within their organizations

# Department of Civil Engineering

## Programme Specific Outcomes (PSOs)

**PSO1:** Graduates will have strong fundamental knowledge in core topics of each subject and will have the ability to describe, analyse, and solve problems using mathematics and systematic problem-solving technique for core subjects of Civil Engineering

**PSO2:** Graduates will be able to patronize higher studies and technological practice in Civil Engineering and to keep pace with the modern construction techniques and management tools either in industry or through entrepreneurship

**PSO3:** Graduates will possess strong professional skills, both written and oral, enabling them to convey technical information effectively to diverse audiences, including clients, colleagues, and the public

# Department of Civil Engineering

## **Brief Overview of the Department**

The Department of Civil Engineering of DR. SUDHIR CHANDRA SUR INSTITUTE OF TECHNOLOGY AND SPORTS COMPLEX was commenced in the year of 2012. It offers both B.Tech and Diploma Engineering courses. The department has sound infrastructure supported by state of art laboratories. The department is also enriched with good academicians from IIT, NIT, IEST, JU and other reputed Institutions. The department is frequently conducting industrial visits, seminars, workshops, debate, quiz and other social activities.

Soft skill programs are embedded as a regular part of academics for better placements. Department is conducting parent's teachers meetings from time to time for constant monitoring of academics and attendance of the students. For maintaining better feedback, mentor mentee meetings are held in the department periodically.

Some laboratory experiments are conducted beyond syllabus by bringing experts/scientists from reputed houses. Initiation is being taken by each mentor of the department for completion of NPTEL online courses by the students. Annual sports and college tournaments both outdoor and indoor games are conducted supported by a fantastic indoor stadium at our campus. Active participation of students is held in academic, cultural and sports competition. The department is taking care of placing the students in industry for their summer and winter internship training as per need.

# Department of Civil Engineering

## HOD Message

Dear colleagues and students,

I am thrilled to address you as the Head of the Civil Department and share my enthusiasm for the incredible work and progress we have made together. As we embark on this new academic year, I want to extend my warmest greetings and express my deep appreciation for your dedication and commitment to excellence.

Our Civil Department has always been a driving force of innovation and knowledge in our institution, and this newsletter is a testament to the remarkable achievements and contributions of our faculty, staff, and students. Through this platform, we aim to showcase our department's accomplishments, share valuable insights, and foster a sense of community and collaboration.

Our department has a proud history of producing competent and skilled civil engineers who leave a lasting impact on society. As we move forward, let us continue to uphold the values of integrity, professionalism, and ethical responsibility that define our field.

In this newsletter, we will highlight the diverse range of research and academic pursuits undertaken by our faculty and students. From cutting-edge research projects to impactful community initiatives, each endeavor is a reflection of our commitment to making a difference in the world.

# Department of Civil Engineering

As we face global challenges like climate change and urbanization, civil engineering plays a crucial role in building a sustainable and resilient future. Let us take this opportunity to discuss the role of civil engineering in promoting sustainability, environmental conservation, and inclusive development.

In addition to academic achievements, this newsletter will also feature stories that celebrate our department's vibrant culture and camaraderie. From workshops and seminars to extracurricular activities and student achievements, we aim to showcase the holistic growth of our department.

I encourage all of you to actively participate in this newsletter's creation. Your ideas, contributions, and feedback are invaluable in making it a true reflection of our department's spirit. Let us engage in open discussions, share our experiences, and inspire one another to reach new heights of excellence.

I extend my gratitude to our exceptional faculty and staff for their tireless efforts and dedication to nurturing the next generation of civil engineers. I am also immensely proud of our students, whose enthusiasm and passion continue to drive us forward.

Thank you all for your unwavering support and commitment to the Civil Department. Together, let us seize the opportunities that lie ahead, overcome challenges, and leave a lasting legacy that shapes the future of civil engineering.

Wishing you all a successful and rewarding academic year!

Mr. Souvik Chakraborty Completed course offered through Coursera on "Fundamentals of Fluid-Solid Interactions "with 80.25% marks

Mr. Souvik Chakraborty Completed course offered through Moocs by Skill-up by Simplilearn on "Python for Beginners "with 82.00% marks

Mr. Souvik Chakraborty, Assistant Professor of Department of Civil Engineering, Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex delivered a guest lecture at "A One Day Seminar on Recent Advancement in Civil Engineering" organized by the Department of Civil Engineering, School of Engineering, Swami Vivekananda University, Barasat, on 01.09.2022

Mr. Krishnendu Kundu Attended in 5 Days Faculty Development Program on Digital Pedagogy- Exploring New Frontiers of Digital Transformations for Teaching-Learning Process organized by JIS University

Mr. Krishnendu Kundu Attended in 5 Days Faculty Development Program on Python Programming organized by JIS University

# Department of Civil Engineering

## **CIVIL DEPARTMENTAL NEWS AT A GLANCE**

Mr. Krishnendu Kundu Completed course offered through Coursera on "Construction Project

Management "with 95% marks

Mr. Krishnendu Kundu Completed course offered through Coursera on "Renewable Energy and Green Building Entrepreneurship "with 82.00% marks

Mr. Prasun Seal Attended in 5 Days Faculty Development Program on Application of Different Computational Techniques in The Field of Engineering organized by Gargi Memorial Institute

of Technology

Mr. Prasun Seal Attended in 5 Days Faculty Development Program on Python Programming organized by JIS University

Mr. Souradeep Roy Completed course offered through Coursera on "Renewable Energy Technology Fundamentals" with 87.08% marks

Mr. Souradeep Roy Completed course offered through Coursera on "Renewable Energy and Green Building Entrepreneurship "with 83.5% marks

Mr. Baibaswata Das published 3 papers titled in conference proceedings of International Conference on Computational Intelligence & Sustainable Technologies (ICoCIST 2021)

# Department of Civil Engineering

## **CIVIL DEPARTMENTAL NEWS AT A GLANCE**

Mr. Souvik Chakraborty published a papers in book chapter of Advances in Green Electronics Technologies.

Mr. Souvik Chakraborty published a paper in book chapter of Emerging Technologies and Management Trends in Environment and Sustainability (EMTES – 2022)

Mr. Swarnajyoti Paul, undergraduate student of B.Tech in CE presented a paper in International Conference on Information, Innovation & Intelligence Systems for Emerging Technologies (I3SET2022) under the guidance of Mr. Baibaswata Das, Mr. Souvik Chakraborty, Mr.

Krishnendu Kundu, Mr. Souradeep Roy and Mr. Sourav Kumar Singha

Department of Civil Engineering has organized a Digital Parent Teacher Meet on 14.06.2022 from 3.00 pm onwards for the Students of Diploma CE 2nd Year, 3rd Year & 1st-year Students in the Google meet platform

Department of Civil Engineering has organized a Digital Parent Teacher Meet on 14.06.2022 from 7 pm onwards for the Students of B.Tech CE 2nd Year, 3rd Year & 4th-year Students in the Google meet platform

Department of Civil Engineering, SurTech has organized a physical Industry Visit for the B.Tech CE 2nd Year Students & B.Tech CE 3rd Year Students on 07.04.2022 and 08.04.2022. The construction site visited by our Students was Multistorey Residential Building "Magnolia Fantasia".

# Department of Civil Engineering

## CIVIL DEPARTMENTAL NEWS AT A GLANCE

Department of Civil Engineering, SurTech has organized a physical Industry Visit for the Diploma CE 2nd Year & 3rd Year Students on 10.06.2022. The industrial site visited by our Students was Dhapa Water Treatment Plant "Jai Hind", a Water Treatment Project by Kolkata Municipal Corporation.

Department of Civil Engineering has conducted a Physical Industry Visit for the Students of B.Tech CE 3rd year Students on 31.10.2022. The industry visited was Jai Hind Jal Prakalpa, Dhapa Water Treatment Plant, a project of Kolkata Municipal Corporation

Department of Civil Engineering and Department of Mechanical Engineering has signed a Memorandum of Understanding (M.O.U) with CADD Centre, Ultadanga on 30th March, 2022

All the B.Tech 3rd Year (2023 batch passout) student got placed in Industrial Summer Internship program in various Govt. and reputed private industries such as PWD, PHE, etc.

Department of Civil Engineering published the wall magazine titled 'GEO-CLIMATE' on 09.06.2022

The Department of Civil Engineering of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex has organized an Innovative Idea Competition on the topic "Conservation and Smart Engineering" on 7th March 2022 from 11.30 AM, an activity under Institute's Innovation Council (IIC)

Department of Civil Engineering has organized an Inter-Departmental Quiz Competition on 21.04.2022 with the students from all the departments

The Department of Civil Engineering Competition "MINDKRAFT" on 20.09.2022 organized an Intra-Departmental Quiz

# Department of Civil Engineering

## Departmental achievements

### Student's achievements :

Soumita Boral, 2021 passout Batch Student of Department of CE received the JIS SAMMAN 2022 Award for best Student in Departmental Level.

Debadri Saha, Student of B.Tech CE 4th year became winner of Innovative idea Competition organized by Department of Civil Engineering.

Soham Chatterjee, Student of B.Tech CE 3rd year became 1st runner-up of Innovative idea Competition organized by Department of Civil Engineering

Sahana Roy, Student of B.Tech CE 4th year became 2nd runner-up of Innovative idea Competition organized by Department of Civil Engineering

Kohelika Debbarma, Pritha Das students of B.Tech CE 2nd Year became winner of Inter Departmental Quiz Competition organized by Department of Civil Engineering

Pushpendu Pandit, Dicky Sherpa, Arpita Sinha, Dibendu Ghosh students of B.Tech CE 3rd year became winner of Inter Departmental Quiz Competition organized by Department of Civil Engineering

Suvrajit Banerjee, student of Civil Engineering 2022 Batch got opportunity to study M.Tech in Department of Geo-Informatics in Maulana Abul Kalam Azad University of Technology.

Arunugshu Pradhan student of Civil Engineering 2022 Batch got opportunity to study M.Tech in Department of Renewable Energy in Maulana Abul Kalam Azad University of Technology.

# Department of Civil Engineering

## Departmental achievements

### Student's achievements :

Yeshpal Thakur, student of Civil Engineering 2022 Batch got opportunity to study M.Tech in Department of Transportation Engineering in Central University of Jharkhand, Ranchi

Suvrajit Banerjee, student of Civil Engineering 2022 Batch published 3 Nos. of Book Chapters in Proceedings of International Conference on Computational Intelligence & Sustainable Technologies (ICoCIST 2021) under the guidance of Mr. Baibaswata Das, Assistant Professor

of Department of Civil Engineering.

Saumyadip Kar, Sudipta Bhowmik, students of B.Tech CE 4th year presented a paper in Emerging Technologies and Management Trends in Environment and Sustainability (EMTES

- 2022) under the guidance of Mr. Souvik Chakraborty, Assistant Professor of Department of Civil Engineering.

Swarnajyoti Paul, student of B.Tech CE 4th year presented a paper in International Conference on Information, Innovation & Intelligence Systems for Emerging Technologies (I3SET2022) under the guidance of Mr. Baibaswata Das, Mr. Souvik Chakraborty, Mr. Krishnendu Kundu, Mr. Souradeep Roy and Mr. Sourav Kumar Singha, Assistant Professors of Department of Civil Engineering

Kashmita Nath Sarkar student of B.Tech CE 4th year published Patent titled 'Body Shell Reshaping Device'.

# Department of Civil Engineering

## Departmental achievements

### Student's achievements :

Raunak Bhattacharya student of B.Tech CE 4th year published Patent titled 'MUSCLE STRENGTHENING EXERCISE DEVICE'.

Swarnajyoti Paul student of B.Tech CE 4th year published Patent titled 'HAND EXERCISE DEVICE'.

Suparna Polley student of B.Tech CE 3rd year published Patent titled 'Sheet Manufacturing Device'.

Swarnajyoti Paul of CE Dept. 2023 batch awarded 2nd place in Table tennis competition organized by Adamas University.

Sampurna Dey of CE Dept. 2022 batch awarded 2nd place in Inter College Solo Singing competition organized by JIS University.

Priyotosh Ghosh of CE Dept. 2022 batch awarded 1st place in Inter College Table Tennis Tournament organized by JIS University.

Sreedipa Bhowmik of CE Dept. 2022 batch awarded 2nd place in Inter College Athletics Meet competition organized by GNIT College Campus.

Puja Chakraborty of CE Dept. 2022 batch awarded 2nd place in Inter College Painting competition organized by JIS University.

Ritobrata Pyne of CE Dept. 2022 batch awarded 2nd place in Inter college Inter-college Athletics Meet competition organized by JIS University.

# Department of Civil Engineering

## Departmental achievements

### Student's achievements :

Priyanka Oraon of CE Dept. 2023 batch awarded 2nd place in Inter college Inter-college Athletics Meet competition organized by GNIT College Campus.

Sanglap Paul Chowdhury of CE Dept. 2023 batch awarded 1st place in Inter college Solo singing competition organized by K.K.University, Nalanda.

Chandan Roy of CE Dept. 2023 batch awarded 1st place in Inter College Athletic Meet competition organized by Kaziranga University, Koraikhowa.

Suvrajit Banerjee of CE Dept. 2022 batch awarded 1st runner-up of Inter-College Debate competition organized by Gandhi Institute of Excellent Technocrats.

## **Department of Automobile Engineering**

# **ANNUAL REPORT 2021-22**

# Department of Automobile Engineering

## **Vision of the department**

To be recognized as a space of excellent education and quality research in the field of Automobile Engineering by adapting transformative teaching-learning process to produce ethical professionals, innovators and entrepreneurs capable of developing the society.

## **Mission of the department**

DM1: To provide the students an excellent academic environment where ethical values will be disseminated along with leadership skills, leading to meaningful contributions towards our society.

DM2: To develop a comprehensive R&D Ecosystem so that the students, faculties can innovate as per societal needs.

DM3: To continuously upgrade the excellence of faculties through Workshops, FDPs and Seminars with the objective to connect with the rapidly changing technologies.

DM4: To collaborate with Industries, Professional Societies and Educational Institutions for the continuous betterment of the students to become Industry-Ready/ Entrepreneurs.

DM5: To practice updated teaching-learning methodologies where fundamental engineering concepts will be blended with different project experiences at all levels of the curriculum to generate new knowledge for the society.

# Department of Automobile Engineering

- **Program Outcomes**

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

# Department of Automobile Engineering

- \* **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- \* **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Automobile Engineering

- **Program Educational Objective (PEO)**

Department of Automobile Engineering expects its B. Tech graduates to achieve the following after the completion of the program:

- **PEO1:** Graduates will be working as professionals in different Automobile Engineering sectors like design, operations, systems and production.
- **PEO2:** Graduates will be solving complex problems to innovate new solutions using modern tools with the ethical responsibility to meet society requirements.
- **PEO3:** Graduates will be engaged in lifelong learning by doing higher studies, research and being members of professional societies.

# Department of Automobile Engineering

- **Program Specific Outcomes (PSOs)**

- **PSO1: Problem-Solving Skills**

Ability to conduct critical analysis and utilize problem-solving techniques, necessary for carrying out research activities in the fields of Automobile Engineering like Engine Testing & Performance Measurement, Alternative fuels and Pollution Control, CAD/CAM and Vehicle Maintenance and Diagnostics.

- **PSO2: Professional Skills**

Ability to plan, design & conduct experiments and simulate the real-life situations involved in Automobile Engineering utilizing efficient, environmental-friendly, sustainable, cost-effective conventional and/or computational methodologies; while operating autonomously or industrial environments.

- **PSO3: Leadership & Inter-personal Skills**

Capacity to compete in the available employment prospects ethically and able to lead, manage, communicate while working in a team proficiently in the Automotive and allied domains.

# Department of Automobile Engineering

## • **Brief Overview of the Department**

Founded in 2009, Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex established its Department of Automobile Engineering. Initially offering a four-year B.Tech program with a student enrollment cap of 60, the department expanded in 2014, introducing a Diploma in Automobile Engineering with the same enrollment limit.

The department's primary objective is to nurture highly skilled and competent automotive engineers equipped with practical experience and updated knowledge of automotive technology. This ensures a steady supply of qualified professionals, bridging the gap between industry demands and academic training. State-of-the-art laboratory facilities provide students with hands-on instruction in various specialized areas of automobile engineering.

Students studying automobile engineering are exposed to diverse engineering specialities, including mechanical, electrical, electronic, and industrial design. This multidisciplinary approach enables students to attain a comprehensive understanding of the subject. Additionally, the department actively fosters professional growth and industry interaction among its students by supporting student chapters associated with prestigious organizations such as the Society of Automotive Engineers (SAE).

# Department of Automobile Engineering

## • HOD Message

Dear colleagues and students,

I am pleased to present the Annual Report from the Automobile Engineering Department of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex. This report comprehensively covers all departmental activities, shedding light on the enthusiastic involvement of our faculty members and students in various acts, events, and proceedings.

We have full confidence in your ability to seize the opportunities presented in this newsletter to enhance your lives. It is crucial to rise resiliently after facing setbacks; it is through these challenges that tales of determination and perseverance are forged. The Department of Automobile Engineering is dedicated to supporting you in all your endeavours. Therefore, focus on your coursework and strive for personal growth every day. Remember, we are here to assist you whenever needed.

As the mentors of the Automobile Engineering Department, along with the entire faculty, I want to assure you that we are committed to your well-being and education. We are here to guide you towards achieving the greatest possible success.

**Dr. Prasun Dutta**

**Head of the Department**

**Automobile Engineering Department, DSCSITSC**

# **ANNUAL REPORT 2021-22**

# Department of Computer Science & Engineering

## **Vision of the department**

To address the challenges of societal needs and global industry requirements in the area of Computer Science & Engineering with state of art education and research.

## **Mission of the department**

**DM1:** To provide an environment for education, research and development by imparting sound theoretical knowledge and practical skills in Computer Science & Engineering.

**DM2:** To produce skilled graduate Engineers capable of designing solutions for industry and society.

**DM3:** To produce skilled graduate Engineers capable of designing solutions for industry and society.

**DM4:** To produce graduates with personal and professional responsibilities with dedication to lifelong learning.

# Department of Computer Science & Engineering

## Program Outcomes

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, Formulate, review research literature and analyze complex engineering problems related to CSE and reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems related to CSE and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety and the cultural societal and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, Select and apply appropriate techniques, resources and modern engineering and IT tools including prediction and modeling to computer science related complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply Reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the CSE professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the CSE professional engineering solutions in societal and environmental contexts and demonstrate the knowledge of, and need for sustainable development.

# Department of Computer Science & Engineering

- \* **Ethics:** Apply Ethical Principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual and as a member or leader in diverse teams and in multidisciplinary Settings.
- \* **Communication :** Communicate effectively on complex engineering activities with the engineering community and with society at large such as able to comprehend and with write effective reports and design documentation make effective presentations and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multi-disciplinary environments.
- \* **Life-long learning:** Recognize the need for and have the preparation and ability to engage in independent and life-long learning the broadest context of technological change.

# Department of Computer Science & Engineering

## **Program Educational Objective (PEO)**

**PEO1:** Graduates will be able to take up technical/managerial roles involving problem analyzing, solving, designing, development to production support in software industries as well as in R&D sectors.

**PEO2:** Graduates will pursue higher education/research.

**PEO3:** Graduates will adapt, contribute and innovate advance technologies and systems in the key domains of Computer Science & Engineering.

**PEO4:** Graduates will be ethically and socially responsible.

# Department of Computer Science & Engineering

## Programme Specific Outcomes (PSOs)

**PS01:** Learn and adapt the latest technologies in the field of computer science and engineering.

**PS02:** Identify and analyze real life problems and provide software solutions.

# Department of Computer Science & Engineering

## **Brief Overview of the Department**

The Department of Computer Science & Engineering of DR. SUDHIR CHANDRA SUR INSTITUTE OF TECHNOLOGY AND SPORTS COMPLEX was commenced in the year of 2009. This stream is aimed at providing training in Computer Engineering, software design and hardware-software integration instead of only Software Engineering or Electronic Engineering. Computer Engineers are involved in many hardware and software aspects of computing, from the design of individual microprocessors, personal computers and supercomputers to circuit design. This field of Engineering will not only make the students aware of how the computer systems work, but also help them understand how to integrate each of them to make them work in the bigger picture.

Soft skill programs are embedded as a regular part of academics for better placements. Department is conducting parent's teachers meetings from time to time for constant monitoring of academics and attendance of the students. For maintaining better feedback, mentor mentee meetings are held in the department periodically.

# Department of Computer Science Engineering

## **HOD Message**

Dear colleagues and students,

We from the Dept. of CSE welcome you in the fascinating world of reality vs. virtual reality, from modelling to simulation, from action to implementation of real world dynamics, engineering, and algorithm. Here we start from the basics of mathematics, physics, earth science etc. to a smoother interface in day to day life. e.g. medical electronics, rocket engineering, undersea navigation everywhere we are here. The course started with basic students passing out of the department and are ready for lifelong learning. The Department provides a blooming environment to both students and faculties. We also interact with industries and research organizations by signing MOUs. I would like to extend a warm welcome to all future engineers and research scholars to be associated with the research activities at the Department of CSE.

Wishing you all a successful and rewarding academic year!

**Prof. (Dr.) Mallika De**  
**HOD, Department of Computer Science & Engineering**  
**Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex**

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

Search Engine Optimization with Google Analytics & AMP; Web Master Tools (19-07-2021 - 23-07-2021):

This comprehensive workshop focused on optimizing web content for search engines, utilizing tools such as Google Analytics, Accelerated Mobile Pages (AMP), and Web Master Tools. Participants gained practical knowledge in improving website visibility, analyzing user behavior, and implementing strategies to enhance search engine rankings, particularly in the mobile sphere.

Mobile Application Development (19-07-2021 - 23-07-2021):

Covering both Android and iOS platforms, this workshop provided hands-on experience in mobile application development. Participants learned about app design principles, development frameworks, and user interface optimization. Through practical exercises, attendees gained proficiency in building responsive and user-friendly mobile applications.

Arduino with IoT (19-07-2021 - 23-07-2021):

In this workshop, participants explored the integration of Arduino microcontrollers with the Internet of Things (IoT). They learned to program Arduino boards, connect sensors and actuators, and develop IoT applications. By combining hardware and software components, attendees gained insights into creating innovative IoT solutions for various domains.

Ethical Hacking (18-02-2022 - 24-02-2022):

Focused on cybersecurity fundamentals, this workshop provided participants with an understanding of ethical hacking principles and methodologies. Through practical labs and simulations, attendees learned to identify vulnerabilities, perform penetration testing, and strengthen the security posture of networks and systems.

# Department of Computer Science & Engineering

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

Introduction to Django (18-02-2022 - 24-02-2022):

Django, a powerful Python web framework, was the centerpiece of this introductory workshop. Participants were introduced to Django's architecture, ORM, templating system, and other key features. Through hands-on projects, attendees gained proficiency in building dynamic web applications using Django's robust development ecosystem.

Blockchain (18-02-2022 - 24-02-2022):

In this workshop, participants delved into the fundamentals of blockchain technology, exploring decentralized ledgers, consensus mechanisms, and smart contracts. Through case studies and discussions, attendees gained insights into the potential applications of blockchain across industries, including finance, supply chain, and healthcare.

These workshops provided valuable insights and practical skills, empowering participants to excel in their respective fields and adapt to the evolving landscape of technology and innovation.

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

### Student's achievements :

#### Outstanding Achievements in Inter College Competitions

##### 1. First Place in Inter College Hundred Meter Run - Nilanjan Mishar:

Nilanjan Mishar's victory in the Hundred Meter Run exemplifies not only his remarkable speed and athleticism but also his dedication to training and perseverance. His swift strides and determination propelled him to the first place, earning him recognition as a standout athlete in the inter college sports arena.

##### 2. First Place in Inter College Chess Competition - Samewanlang Rani:

Samewanlang Rani's triumph in the Chess Competition highlights his strategic thinking and mastery of the game. His ability to anticipate opponent moves and formulate winning strategies secured him the first place, underscoring his intellect and tactical prowess on the chessboard.

##### 3. First Place in Inter College Badminton Competition - Dicky Sherpa:

Dicky Sherpa's victory in the Badminton Competition showcases his exceptional skills and agility on the court. His precision shots, swift movements, and competitive spirit propelled him to the first place, earning admiration from fellow competitors and spectators alike.

##### 4. First Place in Inter College Extempore Competition - Neha Kumari Rajbhar:

Neha Kumari Rajbhar's success in the Extempore Competition reflects her eloquence, quick thinking, and ability to articulate ideas effectively under pressure. Her captivating speech and confident delivery secured her the first place, highlighting her communication skills and intellectual prowess.

##### 5. First Place in Inter College Painting Competition - Ranjan Barman:

Ranjan Barman's triumph in the Painting Competition showcases his artistic talent and creative expression. His captivating artwork captivated the judges and spectators, earning him the first place and recognition as a talented artist within the inter college community.

# Department of Computer Science & Engineering

### Student's achievements :

#### Outstanding Achievements in Inter College Competitions

##### 6. Third Place in Inter College Badminton Competition - Rohit Kumar Rajbhar:

Rohit Kumar Rajbhar's achievement of the third place in the Badminton Competition demonstrates his resilience and sportsmanship on the court. Despite facing tough competition, his determination and skill earned him a commendable position, showcasing his commitment to excellence in badminton.

These outstanding achievements in various inter college competitions not only celebrate the individual talents and efforts of Nilanjan Mishar, Samewanlang Rani, Dicky Sherpa, Neha Kumari Rajbhar, Ranjan Barman, and Rohit Kumar Rajbhar but also contribute to the vibrant and competitive spirit of the inter college community. Their success serves as an inspiration to their peers and underscores the importance of dedication, skill, and passion in pursuing excellence in sports, academics, and the arts.

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

### Faculty's achievements :

1. Ortho\_Sim\_Loc: Essential protein prediction using orthology and priority-based similarity approach

Author: Anjan Kumar Payra

Affiliation: Computer Science and Engineering, Computational Biology and Chemistry

Journal: Computational Biology and Chemistry

DOI:

[10.1016/j.compbiolchem.2021.107543](<https://www.sciencedirect.com/science/article/abs/pii/S1476927121000700>)

#### Abstract:

Identifying essential proteins is crucial in understanding cellular processes and designing therapeutic interventions. In this paper, Anjan Kumar Payra introduces Ortho\_Sim\_Loc, a novel method for predicting essential proteins using orthology and a priority-based similarity approach. The method utilizes orthologous relationships across species and prioritizes protein similarity to infer essentiality.

#### Key Contributions:

1. Orthology-based Prediction: Leveraging orthologous relationships helps in transferring knowledge from well-studied organisms to lesser-known ones, enhancing the accuracy of essential protein prediction.
2. Priority-based Similarity Approach: Introducing a prioritization mechanism based on protein similarity improves the robustness and reliability of essential protein identification.
3. Validation: The proposed method is validated using benchmark datasets, demonstrating its effectiveness compared to existing techniques.

#### Significance:

Ortho\_Sim\_Loc presents a promising approach for essential protein prediction, offering improved accuracy and reliability. The integration of orthology and prioritized similarity enhances our understanding of protein essentiality, which has implications in various fields including drug discovery, disease treatment, and biotechnology.

# Department of Computer Science & Engineering

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

### Student's achievements :

#### Future Directions:

Further refinement and validation of Ortho\_Sim\_Loc could involve expanding the dataset used for validation to include a broader range of organisms and experimental conditions. Additionally, exploring the application of this method in other areas of computational biology could uncover its full potential.

#### 2. Knowledge Mining in Spreading Pattern of COVID-19 and Its Impact on India Economy

Author: Madhusmita Mishra

Affiliation: Computer Science and Engineering

Journal: Journal of Physics

DOI: [10.1088/1742-

6596/1797/1/012013](<https://iopscience.iop.org/article/10.1088/1742-6596/1797/1/012013>)

#### Abstract:

Madhusmita Mishra investigates the spreading pattern of COVID-19 and its repercussions on the economy of India through knowledge mining techniques. The study employs data-driven approaches to analyze the dynamics of COVID-19 transmission and its socioeconomic impact.

#### Key Contributions:

1. Spreading Pattern Analysis: Utilizing data mining techniques, the study elucidates the patterns of COVID-19 transmission, including factors influencing its spread and geographical variations.

# Department of Computer Science & Engineering

## COMPUTER SCIENCE & ENGINEERING DEPARTMENTAL NEWS AT A GLANCE

### Student's achievements :

2. Economic Impact Assessment: By integrating epidemiological data with economic indicators, the study quantifies the impact of the pandemic on various sectors of the Indian economy, such as employment, GDP, and healthcare expenditure.

3. Policy Recommendations: Based on the findings, the study offers insights into policy measures to mitigate the adverse effects of COVID-19 on the economy, including targeted interventions and resource allocation strategies.

#### Significance:

This research contributes to a deeper understanding of the complex interplay between public health crises and economic systems. By employing knowledge mining techniques, it provides valuable insights for policymakers, stakeholders, and researchers grappling with the challenges posed by the COVID-19 pandemic.

#### Future Directions:

Further research could focus on refining the predictive models used for forecasting the spread of COVID-19 and assessing its economic impact. Additionally, investigating the effectiveness of different policy interventions in mitigating the socioeconomic consequences of pandemics could guide future policymaking efforts.

## **Department of Electronics and Communication Engineering**

# **ANNUAL REPORT 2021-22**

# Department of Electronics and Communication Engineering

## **Vision of the department**

To be recognized as an internationally acclaimed technical department by To create an educational environment to mould the students to meet the modern Electronics & Communication industry's challenges through state- of-the-art technical knowledge and innovative approaches. Our fundamental tenets are quality, equity, morality, environmental sustainability, energy- saving, and a strong dedication to the cause of technical education and service.

## **Mission of the department**

DM1: To provide State-of-Art Technical Education.

DM2: To conduct research and innovation that will result in the manifestation of knowledge intellectual property.

DM3: To instill in students a sense of professional ethics and societal responsibility..

DM4: To inculcate teamwork and leadership to be industry-ready and employable.

DM5: To assist graduates in becoming an entrepreneur. skills in students

# Department of Electronics and Communication Engineering

## Program Outcomes

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

# Department of Electronics and Communication Engineering

- \* **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- \* **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Electronics and Communication Engineering

## **Program Educational Objective (PEO)**

**PE01: Knowledge of Basic Engineering Sciences:** To demonstrate professional accomplishment in industry and academic organizations by demonstrating competence in mathematics, engineering fundamentals, electronics and communication engineering, and related subjects..

**PE02: Engineering Design Skills:** To provide the students with the required problem-solving abilities for general engineering design practice.

**PE03: Problem Solving Ability:** To develop engineering graduates who can solve problems and go onto advanced study and research in various fields.

**PE04: Programming Skills:** Exercising the computer programming skills in writing, testing and maintaining the programs for transforming every student to find employment in the field of Electronics, Science & Technology.

**PE05: Technical Dexterity:** To provide the knowledge of designing, building, and testing electronic systems for given specifications using hardware and software techniques in contemporary research and current industry trends.

**PE06: Professional Competence:** To implant professional and ethical mindset, strong communication skills, teamwork skills, leadership traits, management abilities in the students for a successful professional career and societal needs.

# Department of Electronics and Communication Engineering

## **Programme Specific Outcomes (PSOs)**

**PS01:** To analyze, design, and develop solutions for current issues, as well as to use technical expertise to create high- quality products for the electronics and communication-based industries.

**PS02:** To develop creative concepts and solutions in RF & Communication, Networking, Embedded Systems, and VLSI in order to adapt to new information and communication technologies.

**PS03:** The capacity to apply acquired technical knowledge to find employment in the electronics and communications industries as well as to succeed as an entrepreneur.

# Department of Electronics and Communication Engineering

## **Brief Overview of the Department**

The department of ECE started in 2009 with the capacity of 60 intakes in B.Tech and later added M.Tech courses in Communication Engineering in the year 2013. Both these courses are highly successful and the pass outs are able to contribute immensely in the science and technology field.

Every year the successful students are placed in different upcoming domains such as modern telecommunication engineering, Nanotechnology, VLSI designs, embedded systems, high frequency RF technology, mobile communications, etc. The applicability of Electronics and Communication Engineering is in every aspect of modern technology and therefore it requires constant update with recent R&D practices. The students get enough opportunity to explore the fields of their interest while pursuing their regular degrees.

# Department of Electronics and Communication Engineering

## HOD Message

Dear colleagues and students,

Being the Head of the Department of Electronics and Communication Engineering (ECE), of Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex. I am delighted to express my thoughts about the departmental growth. It offers a four year full time B-TECH program in ECE. The average passing result is excellent in the department. Almost 10-12% of students scored above 9 DGPA. Apart from this we are running P.G. Programs, M-TECH. in Electronics & Comm. Engg. Since 2013 The department of ECE offers premier professional technical training that keeps in pace with the latest developments in the field of Electronics and Communication Engineering. We have excellent infrastructure, highly experienced faculties and professionals, associated with research work which collectively ensure a dynamic and vibrant environment in the campus. Some of the Faculty members of this department went to attend International Conferences abroad.

.

# Department of Electronics and Communication Engineering

The department has organized International & National Educational Programs Seminars, Workshops, Faculty Development Programs and Industrial tours). Events like Poster presentation, Technical Quiz contest, Chess completion and Table tennis competition are organized for the students by the department. There are more than 50 publications are done by the faculty & students in National & International Journals & Conferences Seven national patents are published by our faculty and staff members, . Many of our Alumni are settled in abroad and also many of the students are placed in so many reputed Govt sectors and Private Sectors Company and Research Organizations. There is also separate Departmental Library apart from the Central Library in the ECE department. There are many high valued simulation software are present in our department like Tanner SPICE, CADENCE, Matlab 2019b, Visual TCAD, HFSS, Qualnet, Active HDL, MPLS, Altera & Quartus II, TMS Kit with Code Composer Studio etc

## **Department of Electrical Engineering**

# **ANNUAL REPORT 2021-22**

# Department of Electrical Engineering

## **Vision of the department**

To create an ethical human resource proficient, in domains related to Electrical Engineering, for a successful career in the service of society.

## **Mission of the department**

DM1: To impart quality education and training in Electrical Engineering with an overall background suitable for making a successful Engineer in industry and researcher higher education.

DM2: To develop life-long learning skills that allows them to be adaptive and responsive to changes in society, technology and the environment, as well as career demands.

DM3: To provide an accredited dynamic scholarly environment wherein students learn to develop communications and leadership abilities to blossom as a professional.

DM4: To ensure that every graduate is aware of the roles and responsibilities of the professional engineer in society through exposure to ethics, equity, safety and health considerations

# Department of Electrical Engineering

## Program Outcomes

- \* **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
- \* **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
- \* **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
- \* **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
- \* **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
- \* **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
- \* **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

# Department of Electrical Engineering

- \* **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
- \* **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- \* **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
- \* **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Electrical Engineering

## Program Educational Objective (PEO)

**PEO1:** Graduates will possess expertise in problem analysis, solving, designing, skills, and necessary information for a successful career in the field of Electrical Engineering.

**PEO2:** Graduates will accomplish practical acquaintance in modern designing tools, technologies, and Engineering software in Electrical Engineering.

**PEO3:** Graduates will be outstanding in communication, teamwork, and multidisciplinary approach related to engineering issues in a social context.

**PEO4:** Graduates will excel in a competitive environment towards leadership and life-long learning which is needed for a successful professional career.

# Department of Electrical Engineering

## Programme Specific Outcomes (PSOs)

**PSO 1:** Graduates will be able to solve real-life problems of power systems and power electronics using Power World, PSIM, and MATLAB software tools and hardware.

**PSO 2:** Able to provide socially acceptable technical solutions to complex electrical engineering problems with the application of modern and appropriate techniques for sustainable development.

# Department of Electrical Engineering

## Brief Overview of the Department

The Department of Electrical Engineering was established in the year 2011 at the very inception of Sur Institute of Technology & Sports Complex. The department started with a 4-year B.Tech course with an intake capacity of 60 seats. It has an eminent pool of highly experienced academicians and industry persons as faculty and technical staff members.

Electrical Engineering is a professional core engineering discipline that deals with the generation of electricity from different power plants, the design of power plants, the transmission of the generated power using transmission lines, the design of transmission and distribution systems, medium voltage and high voltage transmission of power, distribution of generated power to different industries, commercial customers, domestic consumers and also in agricultural areas. This discipline also deals with designing different machines for power plants, industry applications, home appliances, and many more.

Electrical engineering takes place in the public sector from municipal through to national governments, and in the private sector from IT (to handle projects related to electrical engineering and many more) through to international companies.

Started in the year 2011, the Department of Electrical Engineering prepares students to address the most compelling real-world electrical challenges, backed by sound knowledge, integrity, research, and innovation.

With state-of-the-art infrastructure, faculty of the highest professional standards, a carefully crafted curriculum, active industry-academia collaborations, and global exposure, the Department of Electrical Engineering, DSCITSC, provides students with focused knowledge and practical skills, research, and innovation along with value-added training to prepare them for job ready.

# Department of Electrical Engineering

## HOD Message

Welcome to the Department of Electrical Engineering, Dr. Sudhir Chandra Sur Institute of Technology & Sports Complex, Dumdum, Kolkata. Electrical Engineering (EE) is the front runner because of its recent recognition and adoption by all industries and academia, thereby gaining the self-confidence of our students to compete successfully with all competitive disciplines. It imparts quality education in multifarious disciplines of Electrical, Electronics, Computer Science, Control Engineering, etc. along with generation, transmission, and distribution of electrical power and a set of subjects especially focusing on the performance and design of DC, AC, and Special Electric Machines. The focus of the department is to imbibe the students with potential through broad exposure to all aspects that facilitate their all-round development.

The department has a dedicated team of faculties with a wide spectrum of specializations such as Power Electronics, Power Systems, Control systems, Industrial Drives, hybrid vehicles, computer engineering, and High Voltage for green energy. The course has a healthy blend of Power Engineering, Electronics, and Computer Engineering. The course pattern is planned to keep the students up-to-date with recent trends by organizing regular training, e-learning through MOOC, industrial visits, workshops, conferences, faculty development programs, etc. The students are provided a platform to think, express, and exhibit their skills.

# Department of Electrical Engineering

We produce graduates to become future leaders in industry, academia, government, and society in India whose vision is founded upon fundamental knowledge, creative and analytical skills, local/regional perspective, and ethics. Through a good blend of coursework and projects, the department endows students with the ability to apply knowledge of science, mathematics, and engineering to work effectively in multidisciplinary teams, provide leadership and technical expertise, and practice engineering with ethical approaches and concern for society and the environment.

On the whole, we are committed to creating and erecting a professional graduate community that is vivacious and provides continuous learning. We encourage students, parents, and prospective faculty members to go through the information provided on the website and join us.

**Dr. Sayantan Chakraborty**

**HOD & Associate Professor**

- \* **Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# Department of Mechanical Engineering

## Program Educational Objective (PEO)

**PEO1:** To enhance the knowledge of the under graduates with fundamental Science of Engineering & Technical abilities.

**PEO2:** To develop high level of technical competency combined with research and problem-solving skills to generate innovative solutions in Mechanical Engineering and/or related interdisciplinary areas.

**PEO3:** To expand capability of methodological approach for taking decision and designing.

**PEO4:** To promote awareness towards socio-economic and energy related challenges and enhance professional as well as communication skill and perform as a team.

# Department of Mechanical Engineering

## **Programme Specific Outcomes (PSOs)**

PSO1: Graduates will be able to apply necessary mathematical and advanced software tools for design, analysis and fabrication of components used in the field of mechanical engineering.

PSO2: Students will be able to gain knowledge about engines, machineries and develop critical skills to analyze the cause and effect of complicated mechanical processes.

PSO3: Graduates will be able to gain team spirit for working in industrial projects as well as pursuing higher studies to contribute in mechanical engineering research and development.

# Department of Mechanical Engineering

## **Brief Overview of the Department**

The Department of Mechanical Engineering was established in the year 2009 at the very inception of Dr. Sudhir Chandra Sur Institute of Technology and sports complex (formerly Dr. Sudhir Chandra Sur Degree Engineering College.) The department started with a 4 years B.Tech course (Capacity 30 Students) and later on, Master of Technology (Capacity 18 Students) came into being in 2012. Mechanical engineering is one of the most sought-after core streams of engineering disciplines with multidisciplinary fields of work. The department flourished with excellent laboratory facilities with a wide range of learning facilities, high quality teaching and laboratory staff. The Department stresses upon all round development of the students by personal interaction between the staff and students beyond stipulated working hours and available for guidance even after they have passed out of the college. The Department aims at producing employable engineers who are capable of contributing meaningfully to the society.

# Department of Mechanical Engineering

## HOD Message

It gives me immense pleasure to thank Respected Principal Sir for giving us a desk in the Newsletter of ME Department. I welcome all of you to the Department of Mechanical Engineering. Our college is one of the best engineering colleges in eastern India. The Department of Mechanical Engineering is working very hard towards the goal of providing innovative and quality education with high standards to achieve academic excellence in the field of engineering and to provide the highly skilled mechanical engineers in the service of Nation. The prime motive of our Department is to provide quality education to our students. The process of learning is extremely important in life. What you learn, how you learn and where you learn play a crucial role in developing one's intellectual capability, besides career. The excellent infrastructure and teaching faculties of the best kind ensures quality education. We encourage and promote interaction among students, parents and staff, along with a Training and Placement Cell for necessary guidance and feedback so that we can constantly grow and improve in fulfilling our motto. The hands-on workshops, industrial visits, seminars/webinars by reputed academic/industrial expertise and industry oriented beyond the curriculum training are also provided to the students to help them grow and get industry ready.

## **MECHANICAL DEPARTMENTAL NEWS AT A GLANCE**

Er. Adv. Kaushik Sengupta was invited as a speaker for a seminar on "Career opportunities and entrepreneurship".

A 5-day FDP was organized by Department of Mechanical Engineering on the topic "Research Trends in Science & Technology".

Department of Mechanical Engineering signed a Memorandum of Understanding (M.O.U) with Sikharthy Info-tech Private Limited on 7th December 2021.

Department of Mechanical Engineering organized a Digital Parent-Teacher Meeting on 29<sup>th</sup> November, 2021 from 4.00 pm onwards for the Students of 2nd Year, 3rd Year & 4th year Students in the Google meet platform.

Department of Mechanical Engineering organized a photography competition "Monochrome" on 10<sup>th</sup> December, 2021.

Department of Mechanical Engineering celebrated "Netaji Jayanti" on 23<sup>rd</sup> January, 2022.

Department of Mechanical Engineering conducted a Inter-Departmental quiz competition "Mech-A-Maniac" on 22th July, 2022.

Department of Mechanical Engineering organized a "2-DAY WORKSHOP ON 3D PRINTING" from 12.05.2022 to 13.05.2022.

Department of Mechanical Engineering organized a Seminar on "Research, Project & Internship Opportunities in Mechanical Engineering" on 06.01.2022.

# Department of Mechanical Engineering

## **MECHANICAL DEPARTMENTAL NEWS AT A GLANCE**

Department of Mechanical Engineering organized a seminar on “Brief on Thermal Power Plant; An Industrial Perspective” on 13.11.2021.

Department of Mechanical Engineering organized a Online Technical free Workshop by Sikharthy Infotech 23.07.2021.

Department of Mechanical Engineering celebrated “World Health Day” on 07.04.2022.

Department of Mechanical Engineering organized a Seminar on “Manufacturing of Waste Heat Recovery Boilers” on 28.02.2022.

# Department of Mechanical Engineering

## MECHANICAL DEPARTMENTAL NEWS AT A GLANCE

### Student's achievements :

Student of the Department of Mechanical Engineering has developed an AUTOMATIC TEMPERATURE SENSING AND SANITIZER DISPENSER which can be placed at the entry of any gate. This was done as a student project from the 2nd year. The team leader of the project was Anurag Shaw.

Students of the Department of Mechanical Engineering completed their summer training (duration ranges from four to six weeks) from MSME Tool Room, Kolkata and Mukesh Hyundai.

The department of mechanical engineering had organised an industrial visit for our 3rd and 4th year students at Bureau of Indian Standards (BIS) laboratory, Kakurgachi. Students were accompanied by departmental faculty Mr. Subhendu Pal and Technical Assistant Mr. Tanmoy Das.

Subhodeep Paul, student of 2023 passout batch, presented a paper in IMERE-2021 under the guidance of Dr. Ruma Sen, Assistant Professor of Department of Mechanical Engineering.

Pallab Saha, student of 2022 passout batch, presented a paper in IS3DPT 4.0-2021 under the guidance of Dr. Ruma Sen, Assistant Professor of Department of Mechanical Engineering.

# Department of Mechanical Engineering

## Departmental achievements

### Faculty's achievements :

Mr. Subhendu Pal Completed course offered through Coursera on "The Finite Element Method for Problems in Physics".

Mr. Subhasish Halder Completed course offered through Coursera on "Material Processing".

Dr. Ruma Sen Completed course offered through Coursera on "Advanced Manufacturing Process Analysis".

Mrs. Arpita Chatterjee Completed course offered through Coursera on "Advanced Manufacturing Process Analysis".

Mr. Subhasish Halder Completed NPTEL Online Certification on "Fundamentals of Manufacturing Processes".

Mr. Subhendu Pal attended a technical Conference organized by "American Society of Mechanical Engineers" and presented two papers.

Mr. Subhendu Pal attended in 5-day Faculty Development Program on "A PROSPECTIVE ROAD MAP TO THE ACADEMICIANS" from 03/01/2022 to 07/01/2022 at ATAL online platform.

Mr. Subhendu Pal attended in 5-day Faculty Development Program "Outcome Based Learning" from 11/01/2022 to 15/01/2022 at ATAL online platform.

Mrs. Anupama Kumar attended a One week Short Term training on Fusion Welding Processes, organised by NITTTR Kolkata, from 10th January to 14th January 2022.

Mr. Tanmoy Das attended a One week Short Term training on Fusion Welding Processes, organised by NITTTR Kolkata, from 10th January to 14th January 2022.

Mr. Jit majumder attended a One week Short Term training on Fusion Welding Processes, organised by NITTTR Kolkata, from 10th January to 14th January 2022.

Mr. Subhendu Pal authored a book chapter presented at joint conference of ICTACEM 2021, APCATS 2021, AJSAE 2021 titled "A Study on Vibration Characteristics of Cantilever Conical Shell Made of FG Sandwich Material with Porosity and Thermal Effect".

# Department of Mechanical Engineering

## Departmental achievements

### Faculty's achievements :

Mr. Subhendu Pal organised a 5-day Beyond Syllabus training on Air Conditioning and Refrigeration from 21/03/2022-25/03/2022.

Mrs. Arpita Chatterjee Completed FDP on Artificial intelligence in industry 4.0, Feb 2022.

Mrs. Arpita Chatterjee Received Jis Samman 2021 for highest number of publication in department level.
