REMEMBERING OUR BELOVED BABUJI

This issue of DSCSITSC E-TECH NEWS is dedicated to our beloved BABUJI, Late SARDAR JODH SINGH JI (1920 - 2018), the founder of JIS Group an educational visionary, an inspiring leader and a true humanist. His never-ending drive to excellence, determination and commitment to JIS Group are the

standards that will inspire and stay with us. We honour the legacy he created over the last 68 years. Babuji will be remembered for his energetic innovative ideas, enthusiastic zeal and his pioneering role in removal of illiteracy. The JIS Group Educational Initiatives is a welcome change in West Bengal and India as well.

FROM THE DESK OF MANAGING DIRECTOR

The main focus of our group is to empower students with sound knowledge, wisdom, experience and training both in the academic level of Engineering and Technology in the highly competitive global industrial market. Adequate care is taken to give every student an enjoyable, well-rounded and secure educational environment. Help and care is always at hand for the students. Publishing departmental newsletter indicates a continuous growth of not only the department but also the faculty and students.

Sardar Taranjit Singh

FROM THE DESK OF PRINCIPAL

The key to Happiness is not that you never get Angry, Upset, Frustrated, Irritated or Depressed. It's how fast you decide to get out of it. I am glad to convey my best wishes and message through this newsletter during this crisis period when everyone are fighting hard to combat with COVID 19, to all faculties, staff and students of Department of Computer Science & Engineering.

Dear Students, if you are determined to work hard to achieve your goal, nothing in this world can deter you from achieving your goal. However, if at the outset you fail to get your goal, figure out whether something change needed in your

set goal as per your potential.

Again, work with great vigor you will definitely achieve your goal. If you have set your goal, strive hard to achieve it and the success will be yours. Making excuse for not doing things is very easy, equally easy is finding reasons, ways and means for doing it.

Your enthusiasm, support and cooperation during this crisis period are appreciable. Covid-19 has given us many reasons to look into the other side of the table. Mother Earth, Nature, Plants, Animal and Birds are demanding many things from the Human being. It's right time to understand the need of the day. Education and learning can't be stopped. Love, affection, respect, kindness, desire, positive attitude and optimistic approach can't be locked down.

Try to develop positive mindset and attitude, so that a value-based success and goal can be achieved.

A quotation for all my budding technocrats:

"I was always looking outside myself for strength and confidence, but it comes from within. It is there all the time." – Anna Freud

Till next newsletter all the best!!

Dr. Saradindu Panda

FROM THE DESK OF HEAD OF THE DEPARTMENT

Department of Computer Science & Engineering welcomes you in the fascinating world of reality vs. virtual reality, from modeling to simulation, from action to implementation of real-world dynamics, engineering, algorithms etc. The Department is dedicated to basic teaching and problem solving of mathematics, physics, environmental science etc. and its application in day-to-day life. e.g., bio-medical engineering, security engineering, robotics and IoT etc. The programme starts with basic needs of the students of the departments to prepare them for upcoming challenges and lifelong learning. The Department provides a blooming environment to both students and faculties. Department interacts with industries and research organizations for state-of-the-art technologies by signing MOUs. I would like to extend a warm welcome to all members including future engineers to be associated with the teaching learning and R&D activities in the department.

Dr. Ramesh Saha

DEPARTMENTAL VISION, MISSION, PEOs and POs

Vision

To address the challenges of societal needs and global industry requirements in the area of Computer Science & Engineering with state of art education and research.

Mission

- ❖ To provide an environment for education, research and development by imparting sound theoretical knowledge and practical skills in Computer Science & Engineering.
- ❖ To produce skilled graduate Engineers capable of designing solutions for industry and society.
- ❖ To inculcate work ethics and commitment in students for their future endeavors to serve socio-economic needs.
- ❖ To produce graduates with personal and professional responsibilities with dedication to lifelong learning.

PEOs

- ❖ Graduates will work efficiently as computer science engineers revealing ethical knowledge and leadership qualities in multi-disciplinary areas.
- ❖ Graduates will accustom with varying technologies, tools and societal requirements.
- ❖ Graduates will design and develop solutions that meet individual and industry needs.

❖ Graduates will be motivated for life-long learning to adapt the innovation and changes through research and development.

POs

PO#1: Engineering Knowledge: Apply knowledge of mathematics and science, with fundamentals of Computer Science & Engineering to be able to solve complex engineering problems related to CSE.

PO#2: Problem Analysis: Identify, Formulate, review research literature and analyze complex engineering problems related to CSE and reaching substantiated conclusions using first principles of mathematics, natural sciences and engineering sciences.

PO#3: Design/Development of solutions: Design solutions for complex engineering problems related to CSE and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety and the cultural societal and environmental considerations.

PO#4: Conduct Investigations of Complex problems: Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

PO#5: Modern Tool Usage: Create, Select and apply appropriate techniques, resources and modern engineering and IT tools

including prediction and modeling to computer science related complex engineering activities with an understanding of the limitations.

PO#6: The Engineer and Society: Apply Reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the CSE professional engineering practice.

PO#7: Environment and Sustainability: Understand the impact of the CSE professional engineering solutions in societal and environmental contexts and demonstrate the knowledge of, and need for sustainable development.

PO#8: Ethics: Apply Ethical Principles and commit to professional ethics and responsibilities and norms of the engineering practice.

PO#9: Individual and Team Work: Function effectively as an individual and as a member or leader in diverse teams and in multidisciplinary Settings.

PO#10: Communication: Communicate effectively on complex engineering activities with the engineering community and with society at large such as able to comprehend and with write effective reports and design documentation make effective presentations and give and receive clear instructions.

PO#11: Project Management and Finance: Demonstrate knowledge and understanding of the engineering management principles

and apply these to one's own work, as a member and leader in a team, to manage projects and in multi-disciplinary environments.

PO#12: Life-Long Learning: Recognize the need for and have the preparation and ability to engage in independent and life-long learning the broadest context of technological change.

"Learn from yesterday. Live for today. Hope for tomorrow." -Albert Einstein.

It has been a great pleasure to perform editorial journey of the departmental newsletter VOL 5, JAN-DEC,2022, namely, DSCSITSC E-TECH NEWS. This is to express our sincere thanks and gratitude to all the dignitaries, faculties, staff members, and students of this institute who cooperated and considered our duty as theirs. Any lacuna in editorial job is owned by us but the grand success of the newsletter is attributed to all. We wish a success to the endeavor.
