Report On Google Developer Group (GDG) Orientation Program and Google Student Ambassador (GSA) Session

Organized by

Department of CSE and CSE-Allied
Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex

Title: **Google Developer Group Orientation Program and Google Student Ambassador Session – "Game on Night: Imagine the Impossible"**

Speakers: 1. Susovan Dutta

2. Aryan Choudhary

About the Speakers: 1. Founder VIDYAWAN

2. Technical Head, Shiva Tech Innovations

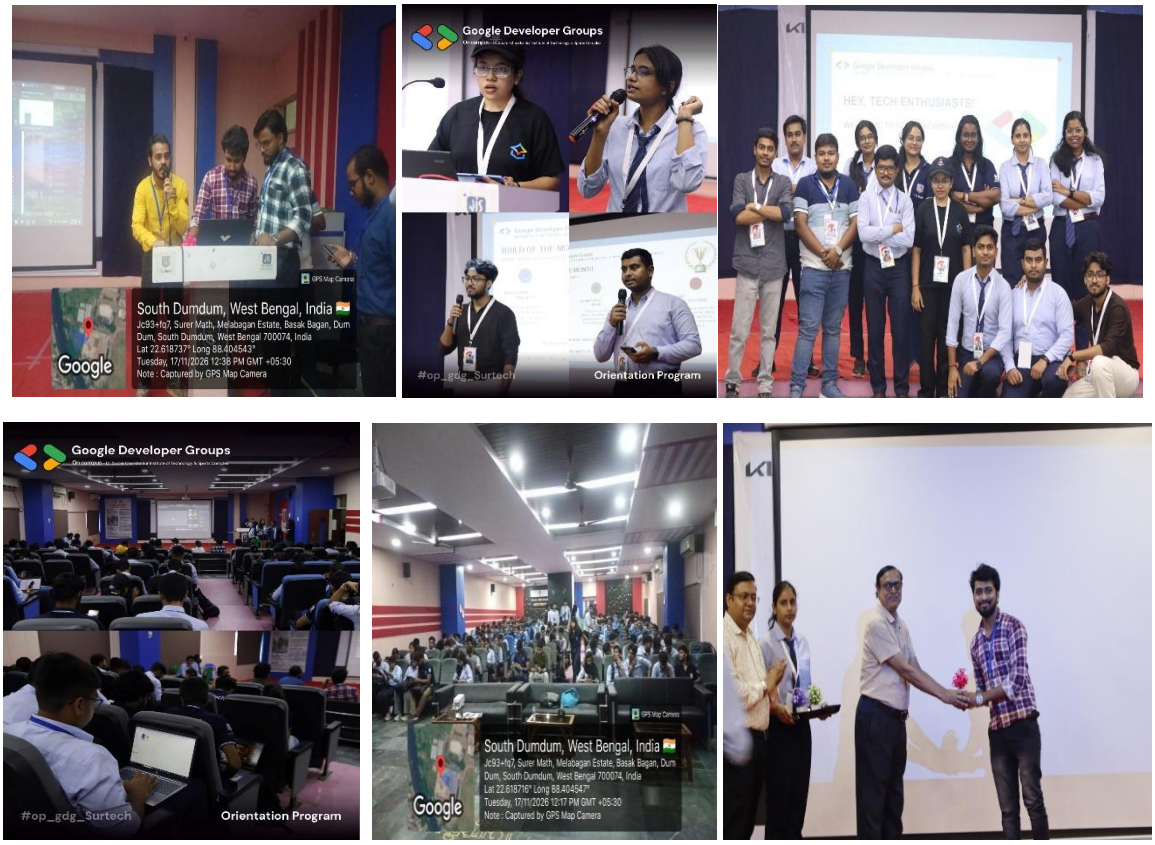

Date and Time: 17/11/2026 from 10.00 AM onwards
Mode: Offline

Number of Participants: 240

Objective: The primary objective of the GDG Orientation Program, organized in collaboration with the Google Student Ambassador (GSA) program, was to introduce students to the GDG community, its activities, and the various opportunities it offers for technical learning, creativity, innovation, and collaboration. The event was held on 17/11/2026 from 10:00 AM to 2:00 PM at the Dr. A.P.J. Abdul Kalam Auditorium, SurTech Campus, with the participation of 240 students from SurTech and other engineering colleges from West Bengal. The program began with the Google Student Ambassador (GSA) session, featuring an engaging creative activity titled "Game on Night: Imagine the Impossible." As part of this activity, students were given the opportunity to create posters based on the given theme through a live interactive session conducted via Google Meet. This activity encouraged students to showcase their imagination, creativity, and innovative ideas. Following the poster-making activity, the sponsors organized an interactive quiz competition to engage the participants and test their knowledge. Winners were selected based on their performance in the competition. The event was also graced by the presence of distinguished guests, including the **Prof. (Dr.) Prof. (Dr.) Saradindu Panda, Principal, Prof. (Dr.) Soumen Basu, Registrar, Prof. (Dr.) Amrut Ranjan Jena, HOD-CSE, and Dr. Madhusmita Mishra, HOD-CSE(AIML)** whose presence added significance to the program. The next session focused on the GDG Orientation, where the GDG core team members introduced the Google Developer Groups community and explained its purpose, importance, and benefits for students. They highlighted how GDG helps students enhance their technical knowledge, develop practical skills, build connections with fellow developers, and explore various learning and career opportunities. Additionally, the core team shared information about upcoming GDG events, workshops, technical sessions, and other planned activities to encourage students to become actively involved in the community. Towards the end of the program, GDG swags and goodies were distributed among the students as a token of appreciation and encouragement. The event concluded successfully at 2:00 PM, creating enthusiasm

among students and motivating them to participate in future GDG initiatives and explore new opportunities in the field of technology. The event concluded successfully at 2:00 PM, creating enthusiasm among students and motivating them to participate in future GDG initiatives and explore new opportunities in the field of technology.

Outcome: The GDG Orientation Program successfully introduced 240 students to the GDG community and the Google Student Ambassador (GSA) program. Students gained knowledge about the importance of community involvement, technical learning, and future opportunities through GDG. The poster-making activity encouraged creativity and innovative thinking, while the quiz competition promoted active participation and healthy competition. The orientation session helped students understand the role of GDG, its benefits, and upcoming events and workshops. Overall, the program inspired students to enhance their skills, collaborate with others, and actively participate in future GDG activities.
