The main objectives of the MoU are given below

- To establish a long-term collaboration, agreement, and strategic partnership founded on principles of mutual trust, respect, and shared understanding.
- The collaboration is intended to harness and enhance the talents and professional potential of organizations, fostering mutual growth and development
- To develop co-operation and promote mutual understanding and excellence in practice-based education, research and knowledge exchange between the parties.
- To jointly organize seminars, FDP, conferences, or workshops on topics of mutual interest and to invite each other's faculty to participate therein.
- Coordinating and managing academic courses, along with organizing seminars, workshops, and conferences, while also facilitating the exchange of knowledge, experiences, and best practices in teaching, research, and industrial applications—based on the mutual convenience and interests of the participating researchers.
- To provide students with industry exposure through internships, training programs, and industrial visits.
- To design and deliver job-oriented, practical training aligned with the National Education Policy (NEP) 2020.
- To enhance academic curriculum and pedagogy by incorporating industry-relevant content and technologies.
- To initiate collaborative research and development projects in interdisciplinary domains such as life sciences, biotechnology, nanotechnology, and materials science.
- To facilitate the exchange of research outputs, learning materials, and technical expertise between the two institutions.
- To provide opportunities for faculty development through industry-academia collaboration and upskilling.
- To identify and groom high-potential students for research, innovation, and future employment opportunities.
- To create a platform for innovation, interdisciplinary learning, and entrepreneurial development.

Report:

Dr. Sudhir Chandra Sur Institute of Technology and Sports Complex (formerly Dr. Sudhir Chandra Sur Degree Engineering College), established in 2009 under the aegis of the JIS Foundation and recognized under Section 2(f) of the UGC Act, 1956, stands as a beacon of academic excellence and innovation. The institute has been granted autonomous status, holds a prestigious NAAC 'A' accreditation, and has received NBA accreditation for four of its departments, highlighting its commitment to quality education and continuous improvement.

Outcomes of MoU: The following outcomes of MoU are given below:

- Enables communication between academic and administrative employees for seminars, conferences, teaching, and research objectives.
- Engagement in joint research projects depending on mutual areas of interest between the faculties of both the institutions.
- Strengthened collaboration in applied and interdisciplinary research with potential for publications and patents.
- Enriched academic programs and curriculum with inputs from industry experts and current technological trends.
- Increased faculty participation in industry-aligned training, enhancing teaching quality and professional growth.
- Availability of additional learning resources and research infrastructure through mutual sharing.
- Identification of industry-ready students suitable for internships, employment, or research positions in the biopharma sector.
- Contribution to institutional excellence through the adoption of best practices and quality enhancement frameworks.
- Promotion of interdisciplinary innovation and entrepreneurship among students and researchers.

The Validity of the MOU is till 24th July 2030. It can be extended by further periods, as agreed to by both the Parties from time to time.
